

DERBYSHIRE MAPS: SUMMARY GUIDE

This is a quick research aid to manuscript maps held in collections in Derbyshire Record Office. Entries are arranged by place. Further details are given in catalogues available for reference in Derbyshire Record Office Search Room. These should be checked before requests are made for documents to be consulted. Where places were not subject to tithe and therefore no Tithe Map was created, this is noted. Please also note that copyright restrictions may apply to maps in this list and that it may not be possible to supply copies of outsize or fragile maps.
