

Derbyshire Highways Laboratory

DCC Highways Laboratory
Ripley Road, Ambergate,
Belper, Derbyshire, DE56 2ER

Tel: 01629 532910
e-mail: martin.rice@derbyshire.gov.uk

Derbyshire Highways Laboratory provides a materials consultancy, testing and site investigation service to the construction industries. Private developers, consulting engineers and public organisations are among the many clients taking advantage of these services.

The Laboratory maintains an extensive range of modern testing facilities at Ambergate and together with on site testing, offers the following services:-

- **Aggregates**
- **Bituminous Materials**
- **Concrete Testing**
- **Griptesting**
- **Plate Testing and CBR's**
- **Pavement Investigations (Coring)**
- **Site Investigations**
- **Soils Testing**

The Laboratory is Quality Assured under the United Kingdom Accreditation Service (UKAS) and holds accreditation for many of the tests.

The Laboratory is located on the A610 on Ripley Road, Ambergate, Derbyshire, DE56 2ER.

If you have a materials problem or require specialist advice, why not call on the professional experience of the Materials Engineer or any senior member of his staff.
