

Community Profile

This area profile is the first stage in drawing together a range of information about a particular geographical area and its communities. The profile brings together basic statistical and consultation data and, where available, performance information and details about key initiatives in the area. There are 10 sections following the Audit Commission's quality of life themes. The profile aims to provide a more rounded picture of an area than can be achieved by viewing the information in isolation and should be used as a tool to provide a context and overview of an area, rather than detailed analysis of a particular topic or information type.

The Etwall area lies to the north west of the South Derbyshire district of Derbyshire. It covers an area of 10,737 hectares. Large centres of population are located in the south of the area around the villages of Foston, Hatton, Hilton, Etwall and Burnaston. There are smaller population settlements in the rural tract to the north of the area, including Church Broughton and Sutton on the Hill. The area borders the county of Staffordshire on its southern boundary and the City of Derby on its eastern boundary.

.A larger map of the area is shown on the final page of this profile.

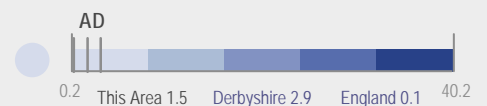

A separate User Guide contains a detailed description of the statistics and a guide to interpreting the charts.
