

Community Profile

This area profile is the first stage in drawing together a range of information about a particular geographical area and its communities. The profile brings together basic statistical and consultation data and, where available, performance information and details about key initiatives in the area. There are 10 sections following the Audit Commission's quality of life themes. The profile aims to provide a more rounded picture of an area than can be achieved by viewing the information in isolation and should be used as a tool to provide a context and overview of an area, rather than detailed analysis of a particular topic or information type.

The Newhall area lies to the south west of the South Derbyshire district of Derbyshire. It covers an area of 849 hectares. Population is centred on the urban area of Newhall adjacent to the town of Swadlincote.

.A larger map of the area is shown on the final page of this profile.

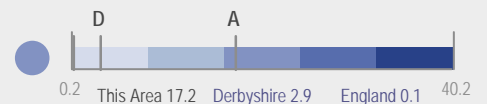

A separate User Guide contains a detailed description of the statistics and a guide to interpreting the charts.

People and Place

29.2%

Residents who would like to be more involved in Council decisions affecting their area 2006
17.9%

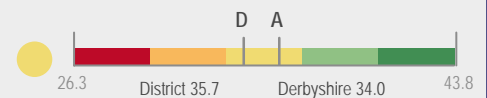

The Swadlincote and District 50+ Forum has 189 members, who aim to:

- develop a more positive image of people over 50 and improve intergenerational working by consulting with youth agencies to establish an intergenerational project.
- recruit more members;
- improve access to information for Forum members in consultation with social services in relation to services provided, and through the use of Gold Card and other relevant publications;
- strengthen links with the Erewash Community Safety Officer and local police to help older people increase personal safety and security;
- consult with older peoples groups in South Derbyshire on working towards an 'Out of Hours Service' that better meets the needs of the 50+ community.

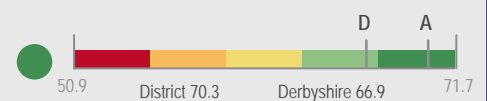

The views of the district Youth Forum on facilities for young people appear in the Culture and Leisure section.

Community cohesion

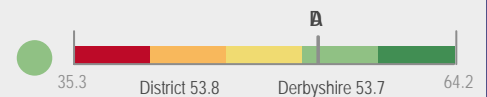

Residents who have formally volunteered in the last 3 years 2006
35.7%

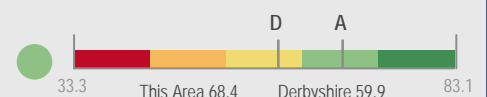

Residents who have informally volunteered for a relative in the last 3 years 2006
