Subject: Application consultation for CW5/1116/71 - The restoration of Creswell Colliery Lagoons.
Date: 03 January 2017 20:54:30

Thank you for notification of the above application.

There are no objections to the development proposed.

We would recommend that, as far as possible, the reserve boundaries and access points should be secured against unregulated use by motor cycles, by use of planting, ditches, bunds and A frame gates.

This form of misuse is an existing problem in the area which could potentially have a detrimental effect upon the completed proposal.

Regards
