

Technical Support Document 3

3rd Edition 2026

Monitoring Landscape Change 2003 - 2026

Introduction

This Technical Support Document is intended to support Part 5 of 'The Landscape Character of Derbyshire' publication. Part 5 aims to underpin the objectives of the European Landscape Convention (ELC) by monitoring landscape change and helping involve people in understanding this change (Articles 5, 6AD).

At the national level, attempts to monitor landscape change have been delivered through initiatives such as Countryside Quality Counts (CQC), which looks at landscape change in the context of National Character Areas. Using various national datasets this review monitors landscape change in the context of four potential outcomes:

- **Maintained** – stable and consistent with character/vision
- **Enhancing** – changing and consistent with character/vision
- **Neglected** – stable but inconsistent with character/vision
- **Diverging** – changing but inconsistent with character/vision

The CQC project recommends that landscape change should be monitored on a 5 year cycle. The scale of the CQC approach is not particularly relevant at the county scale, so in this context it is proposed to monitor landscape change in Derbyshire through the use of fixed point photography on a 5 yearly cycle.

Method

The fixed point photography has identified 24 viewpoints across the county. Some of these viewpoints are the same as were chosen in the first edition of 'The Landscape Character of Derbyshire' document and, as such, allow for the monitoring of landscape change since it was published. Others are new locations often taken from elevated vantage points that allow for broad panoramic views over large areas. These views may reflect a number of landscape character types and are often selected in anticipation of known pressures for change.

Photos used in the original publication were taken during 2003 with the subsequent photos taken in 2011 and 2016. The most recent photos have been taken during the spring and summer of 2021. Where a photograph is taken from the position of one of the original photographs, the latest photo is shown side by side to demonstrate the changes that have taken place in the intervening period. Additional photos taken between the first and latest images are also included at each location for comparison and completeness. It is proposed that the exercise will be repeated every 5 years to monitor landscape change to provide feedback for the planning process and help inform future training requirements.

HADFIELD & GLOSSOP FROM CHARLESWORTH ROAD (MONKS ROAD)

DARK PEAK

Settled Valley Pastures

A settled, pastoral farming landscape on gently sloping lower valley sides, dissected by stream valleys. Dense watercourse trees, scattered boundary trees and tree groups around settlement contribute to a strongly wooded character.

A panoramic view of Hadfield, Simmondley and Glossop from Charlesworth Road near Coombes Edge.

Direction: North

Grid Ref: 4022 3923

Landscape Character: This is a view of the Settled Valley Pastures in the Dark Peak taken from an elevated vantage point within the Peak District National Park. This is a well settled, pastoral landscape with a well wooded character.

Baseline landmarks and visual features:

Foreground – Simmondley (left centre) and heather moorland and birch scrub on Herod Edge (far right).

Middle distance – Gamesley estate set within woodland (far left), viaduct at Dinting Vale, Mouselow Quarry (middle) and western edge of Glossop (right).

Background – distant views towards Hollingworth, Hadfield and Tintwistle with Arnfield reservoir just visible (centre left).

Change to view: 2011 to 2026 - there has been some restoration to the far slopes of Mouselow Quarry. There has been an expansion of the Gamesley Estate (far left) and a new housing development is under construction off Dinting Road beyond the viaduct. Tree cover has increased, with woodland areas appearing denser and more mature. There is little discernible difference in the wider landscape, so the overall character of the view is assessed as Maintained.

HADFIELD & GLOSSOP FROM CHARLESWORTH ROAD (MONKS ROAD)

Additional Photographs

CHAPEL-EN-LE-FRITH FROM COWLOW LANE, WEST OF DOVE HOLES

2011

2026

DARK PEAK

Settled Valley Pastures

A settled, pastoral farming landscape on gently sloping lower valley sides, dissected by stream valleys. Dense watercourse trees, scattered boundary trees and tree groups around settlement contribute to a strongly wooded character.

A panoramic view from near Bank Hall Farm, Cowlow Lane looking over Chapel-en-le-Frith.

Direction: North

Grid Ref: 4051 3786

Landscape Character: An elevated vantage point from the edge of the Moorland Fringe (Dark Peak) looking over the Settled Valley Pastures near Chapel-en-le-Frith towards the distant hills of the Peak District National Park.

Baseline landmarks and visual features:

Foreground – rough grazing associated with the Moorland Fringe.

Middle distance – the settlement of Chapel dominates the centre of the view with the new secondary school visible immediately left of the railway line. Directly left of the school is the area known as Lower Crossings.

Background – the distant hills of the Peak District form the skyline with Chinley Churn being the hill summit to the left of the view.

Change to view: 2011 to 2026 - there has been some residential expansion to the left of the view and adjacent to the railway line in the middle distance. There has been some field boundary loss in the foreground. There is little discernible difference in the wider landscape, and the overall character of the view is assessed as Maintained.

CHAPEL-EN-LE-FRITH FROM COWLOW LANE WEST OF DOVE HOLES

Additional Photographs

DARLEY DALE AND THE DERWENT VALLEY FROM STANTON MOOR

DARK PEAK

Riverside Meadows

Gentle valley floors contain upland rivers, lined with dense trees. Hedgerows enclose small, sub-regular fields in a pastoral landscape, interrupted by the occasional historic mill.

A panoramic view of the Derwent Valley at Darley Dale towards Matlock from Stanton Moor.

Direction: East

Grid Ref: 4250 3629

Landscape Character: An elevated vantage point from Stanton Moor looking over the Derwent Valley comprising the Settled Valley Pastures, Riverside Meadows and more distant Enclosed Moorland. This view shows the contrast between the Riverside Meadows and the Settled Valley Pastures.

Baseline landmarks and visual features:

Foreground – tops of trees flanking the steep slopes rising to Stanton Moor and the extensive poplar plantations around the Enthovens factory (far right). **Middle distance** – the main residential area of Darley Dale centred on Broadwalk and the Parkway (left of centre) with the open floodplain in front and interlocking woodland to the rear. The edge of Matlock is visible along the valley in the distance (far right). **Background** – the plantation woodlands on Darley and Matlock moors form the skyline.

Change to view: 2011 to 2026 - there has been some modest development to the left of the view (industrial to residential) and along the valley towards Matlock including a new housing development adjacent to the Old Road Industrial Estate (centre right). Whilst locally these developments have had some impact overall the view remains largely unchanged and the overall character of the landscape in the view is assessed as Maintained.

DARLEY DALE AND THE DERWENT VALLEY FROM STANTON MOOR

Additional Photographs

HARPUR HILL BUSINESS PARK FROM SOLOMON'S TEMPLE

WHITE PEAK

Upland Limestone Pastures

An undulating highland landscape of rough grazing and stock rearing, with prominent limestone outcrops and open, expansive views.

A panoramic view of Harpur Hill Business Park from Solomon's Temple.

Direction: South

Grid Ref: 4054 3717

Landscape Character: An elevated vantage point of the Upland Limestone Pastures in the White Peak; undulating upland with steep slopes, bare rock outcrops, rough grazing and essentially treeless. The landscape character is now impacted upon by quarrying and the Harpur Hill Business Park.

Baseline landmarks and visual features:

Foreground – rough grazing and rocky outcrops of Grin Low.

Middle distance – dominated by the Harpur Hill Business Park including the Health and Safety Laboratory.

Background – The skyline is formed by Hoffman Quarry (now disused – left), Staker Hill, Chrome Hill (pointed hill summit in the centre) and the distant hills of the South West Peak (far right).

Change to view: 2011 to 2026 - there has been expansion of the business park (left and centre of view). A small area of excavation and tipped material has appeared in the centre middle ground. Tree planting continues to establish, with additional new tree and scrub cover on slopes and field margins. These changes are inconsistent with the character of the Upland Limestone Pastures so overall the view is assessed as Diverging.

HARPUR HILL BUSINESS PARK FROM SOLOMON'S TEMPLE

Additional Photographs

VIA GELIA WOODLANDS FROM MASSON HILL

2011

2026

WHITE PEAK

Limestone Dales

Narrow, deeply incised river valleys with steep slopes and extensive amounts of exposed rock. There are blocks of ancient woodland, areas of scrub and rough grassland grazed by sheep.

A single frame view taken on footpath off Ember Lane looking towards Griffe Grange

Direction: South-West

Grid Ref: 4283 3582

Landscape Character: An elevated view from Masson Hill looking across the wooded Limestone Dales of the Via Gellia to the Plateau Pastures beyond.

Baseline landmarks and visual features:

Foreground – small pastoral fields with some medieval lynchets bounded by drystone walls with uncharacteristically dense mature boundary trees.

Middle distance – heavily wooded limestone dale including large areas of ancient woodland.

Background – Pastoral fields of the plateau pastures at Middleton Moor to the left and Harboro' Rocks to the right.

Change to view: 2013 to 2026 - three additional wind turbines are evident on the skyline, adding to the four turbines erected at Carsington Pastures. Evidence of ash die back on foreground tree, and potentially in background woodland. There has also been some increase in tree maturity within field boundaries. Overall, there is no discernible difference in the view, so the character of the landscape in the view is assessed as Maintained.

VIA GELIA WOODLANDS FROM MASSON HILL

Additional Photographs

ALPORT HEIGHTS FROM BULLHILL FARM, SOUTH OF KIRK IRETON

2011

2026

**DERBYSHIRE PEAK
FRINGE AND LOWER
DERWENT**

**Wooded Slopes
and Valleys**

This is a landscape of small pastoral fields on undulating, rising ground. Woodland on steeper slopes, along with hedgerow and watercourse trees contribute to a strongly wooded character.

A single frame view taken from Bullhill (farm) to the south of Kirk Ireton looking towards Alport Heights.

Direction: East

Grid Ref: 4271 3493

Landscape Character: This is predominantly a view of the Wooded Slopes and Valleys in the Peak Fringe; undulating topography, small pastoral fields and well wooded. The lower lying land in the middle distance shows the Wooded Farmlands with the hill summit at Alport Heights being in the Gritstone Moors & Heath.

Baseline landmarks and visual features:

Foreground – pastoral fields near Bullhill Farm.

Middle distance – scattered farmsteads that comprise the community of Ashleyhay.

Background – telecommunication masts at Alport Heights form the skyline.

Change to view: 2011 to 2026 - minor variation in colour of grassland due to slight difference in timing of photos but otherwise no discernible difference in the view. Overall, the character of the landscapes in this view is assessed as Maintained.

ALPORT HEIGHTS FROM BULLHILL FARM, SOUTH OF KIRK IRETON

Additional Photographs

LOOKING SOUTH-EAST FROM MILL LANE BETWEEN BRADBOURNE AND BRASSINGTON

2011

2026

DERBYSHIRE PEAK FRINGE AND LOWER DERWENT

Settled Farmlands

A gently undulating to rolling pastoral landscape over mixed geology, characterised by densely scattered hedgerow trees and along watercourses. Villages and sparsely scattered farmsteads give the impression of a well settled landscape.

A panoramic view from Mill Lane between Bradbourne and Brassington.

Direction: South-East

Grid Ref: 4218 3538

Landscape Character: An elevated vantage point on the edge of the Limestone Slopes in the White Peak looking across the Settled Farmlands within the Peak Fringe. This is a typical view of the gently undulating land-form, small to medium fields enclosed by hedgerows and occasional walls, permanent pasture with extensive ridge and furrow, and densely scattered hedgerow trees.

Baseline landmarks and visual features:

Foreground – pastoral fields with extensive ridge and furrow immediately adjacent to Mill Lane, near Bradbourne.

Middle distance – small pastoral fields with dense hedgerow trees on minor ridge line to the west of Carsington Reservoir with the open rising ground of Carsington Pastures to the far left.

Background – glimpsed views beyond ridgeline to more elevated parts of Peak Fringe.

Change to view: 2011 to 2026 - there is some deterioration of the dry-stone wall in the foreground. Evidence of ridge and furrow reduction is visible in central field suggesting agricultural intensification. Some variation in grassland colour due to the slight difference in the timing of the photos but otherwise there is little change in the view. Overall, the character of the landscape in this view is assessed as Maintained.

LOOKING SOUTH-EAST FROM MILL LANE BETWEEN BRADBOURNE AND BRASSINGTON

Additional Photographs

DRONFIELD VALLEY FROM APPERKNOWLE

2011

2026

**NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD**

**Estate
Farmlands**

A broadly undulating upland with a strongly wooded character, defined by woodland, mixed farming and sparsely scattered settlement.

Panoramic view from an elevated vantage point on Summerley Road, Apperknowle

Direction: South-West

Grid Ref: 4379 3785

Landscape Character: A typical view of the Wooded Slopes and Valleys in the Derbyshire Coalfield; mixed farming, hedgerow boundaries, extensive woodland and tree cover, and scattered hamlets and farmsteads

Baseline landmarks and visual features:

Foreground - properties along Summerley Lower Road.

Middle distance – Ramshaw Wood wrapping around plateau edge (left), Drone Valley extending away towards Chesterfield (left centre), the Hallows residential area of Dronfield (right).

Background – Northern suburbs of Chesterfield (Sheepbridge/Dunston) and the hills of the Peak Fringe on the far horizon.

Change to view: 2011 to 2026 - other than the temporary taped fencing in the foreground, the developing woodland to the rear of the white property and the variation in grassland colour, the view remains largely unchanged. Overall, the character of the landscape in this view is assessed as Maintained.

DRONFIELD VALLEY FROM APPERKNOWLE

Additional Photographs

FORMER STAVELEY WORKS FROM MIDDLECROFT, STAVELEY

**NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD**

**Estate
Farmlands**

A broad, gently undulating landscape characterised by mixed farming and sparse tree cover.

A panoramic view towards the former Staveley Works site, Hall Lane landfill site and Barrow Hill.

Direction: North

Grid Ref: 4424 3741

Landscape Character: An elevated vantage point (St John's Street, Middlecrott) within the Estate Farmlands (Derbyshire Coalfield) looking across the Riverside Meadow of the River Rother to Estate Farmlands beyond. The distant hills to the left comprise the Wooded Hills and Valleys.

Baseline landmarks and visual features:

Foreground – arable fields of the Estate Farmlands.

Middle distance – the floodplain of the River Rother with the river defined by the linear tree belt immediately behind the pylons. Beyond the river is the scrubby ground of the former Staveley Ironworks with the current chemical works evident to the right. The settlement of Barrow Hill is visible to the left centre with the gently domed landform of the Hall Lane landfill site to the right.

Background – the skyline is formed by the rising ground and extensive woodlands of the Wooded Hills and Valleys.

Change to view: 2011 to 2026 - foreground vegetation is partially obstructing the view and there has been significant woodland regeneration on the Staveley Works and Hall Lane which has become well established. Tip sites and further demolition of the Staveley Chemical Works (right). These changes deliver some improvements so overall the character of the landscape in the view is assessed as Maintained/ Enhancing.

FORMER STAVELEY WORKS FROM MIDDLECROFT, STAVELEY

LOOKING NORTH FROM SUTTON SCARSDALE HALL

2011

2026

**NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD**

**Estate
Farmlands**

A broad, gently undulating landscape characterised by mixed farming and sparse tree cover.

A panoramic view from Sutton Scarsdale Hall.

Direction: North

Grid Ref: 4442 3689

Landscape Character: A typical view of the Estate Farmlands in the Derbyshire Coalfield; broadly undulating topography, mixed farming dominated by arable, hedgerows, localised woodlands and occasional trees, an open landscape with long distance views.

Baseline landmarks and visual features:

Foreground – large arable field within the former park boundary to Sutton Scarsdale Hall.

Middle distance – dominated by the newly restored landscape of the former Arkwright opencast coal site. The degraded land surrounded by trees (left centre) is the location of the former site office/compound to the opencast coal site.

Background – distant views beyond Arkwright Town and Duckmanton towards the northern coalfield and the rising ground of the Southern Magnesian Limestone plateau (far right).

Change to view: 2011 to 2026 - three solar farms are now evident (left, centre and right) and a single large wind turbine. A new waste recycling facility is visible on the former Arkwright tip site. Woodlands and hedgerows planted on the former Arkwright Surface Mining site continue to develop and mature. Despite recent developments the overall character of the landscape in the view is assessed as Maintained.

LOOKING NORTH FROM SUTTON SCARSDALE HALL

Additional Photographs

LOOKING WEST FROM PALTERTON

2011

2026

**NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD**

**Estate
Farmlands**

A broad, gently undulating landscape characterised by mixed farming and sparse tree cover.

A panoramic view across the northern Derbyshire Coalfield from Palterton.

Direction: West

Grid Ref: 4474 3684

Landscape Character: An elevated vantage from the western edge of the Limestone Farmlands in the Southern Magnesian Limestone looking across the Wooded Farmlands, Riverside Meadows to the Estate Farmlands of the Derbyshire Coalfield.

Baseline landmarks and visual features:

Foreground – lower slopes of the Wooded Farmlands dominated by arable cropping.

Middle distance – the tree-lined corridor of the Riverside Meadows defining the route of the River Doe Lea located immediately at the foot of the scarp slope. Deepdale Farm is in the centre beyond the river corridor and Sutton Scarsdale Hall is located further beyond at the edge of woodland, both within the Estate Farmlands.

Background – the skyline is defined by the distant hills of the Peak Fringe.

Change to view: 2011 to 2026 - other than some solar farm development in the middle distance to the right of Sutton Scarsdale Hall, variation in agricultural land use, and the continued maturation of hedgerows and woodland vegetation across the wider landscape, there is no discernible difference in the view. Overall character of the landscape in the view is assessed as Maintained.

LOOKING WEST FROM PALTERTON

Additional Photographs

MARKHAM VALE FROM SHUTTLEWOOD ROAD, BOLSOVER

NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD

Wooded
Farmlands

A small scale undulating landscape rising to the magnesian limestone plateau. Characteristically well-wooded, sparsely settled and dominated by mixed farming.

A panoramic view from an elevated position towards Markham Vale and Duckmanton.

Direction: West

Grid Ref: 4471 3710

Landscape Character: An elevated vantage point in the Wooded Farmlands (Derbyshire Coalfield) looking across the wider Estate Farmlands. This is not a typical view of either with much of the foreground and middle distance dominated by degraded or recently restored land associated with the former Coalite works, and Bolsover and Markham Collieries.

Baseline landmarks and visual features:

Foreground – beyond the rooftops of Bolsover is the recently planted former Bolsover North colliery tip with Woodhouse Lane running over the top. Middle distance – former Coalite Works to the left of the Bolsover north tip with the wooded former Markham Colliery tip immediately to the right. Background – long distance views towards Brimington and Staveley with the hills of the Peak District forming the far horizon.

Change to view: 2011 to 2026 - new industrial development at Markham Vale and the former Coalite site dominates the middle distance, and a wind turbine and solar farm beyond. New housing development to the far right of the view. The restored Bolsover Colliery Tip continues to mature, creating a large woodland block. Although the new woodlands help to assimilate change, the overall impact of the industrial development is significant and inconsistent with the vision for the respective LCTs, so the character of the landscape in the view is assessed as Diverging.

MARKHAM VALE FROM SHUTTLEWOOD ROAD, BOLSOVER

LOOKING NORTH-EAST FROM M1 NEAR SUTTON SCARSDALE HALL

2011

2026

**NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD**

**Wooded
Farmlands**

A small scale undulating landscape rising to the magnesian limestone plateau. Characteristically well-wooded, sparsely settled and dominated by mixed farming.

A panoramic view looking generally east from the M1 near Sutton Scarsdale Hall.

Direction: North-East

Grid Ref: 4452 3690

Landscape Character: A vantage point from Carr Lane near the M1 motorway, from the footpath to Lodge Farm, within the Derbyshire Coalfield Estate Farmlands looking to monitor change to the Wooded Farmland on the scarp slope. The foot of the scarp slope defines a narrow corridor for the River Doe Lea which is part of the Riverside Meadows.

Baseline landmarks and visual features:

Foreground – arable fields immediately east and northeast of Sutton Scarsdale Hall.

Middle distance - linear tree belt associated with River Doe Lea and Stockley Trail.

Background – the scarp slope immediately south of Bolsover and west of Palterton.

Change to view: 2011 to 2026 - there has been some modest tree and hedgerow loss on the slopes below Palterton and there is minor variation in agricultural land use. Overall, the character of the landscape in the view is assessed as Maintained.

LOOKING NORTH-EAST FROM M1 NEAR SUTTON SCARSDALE HALL

MORTON TIP

2003

2026

**NOTTINGHAMSHIRE,
DERBYSHIRE & YORKSHIRE
COALFIELD**

**Coalfield Village
Farmlands**

A broad industrial landscape characterised by villages, dairy farming and small woodlands.

A single frame view from the top of Morton Tip looking towards Tibshelf

Direction: East

Grid Ref: 4412 3605

Landscape Character: A view across the Coalfield Village Farmlands within the Derbyshire Coalfield. The village of Tibshelf sits on the ridgeline with remnant medieval strip fields running down the slope, finishing at a linear tree belt. The predominant land-use is dairy farming with some fields being used for arable crops.

Baseline landmarks and visual features:

Foreground – Pastoral fields partially screened by trees growing on the lower slopes of Morton Tip.

Middle Distance - Pastoral fields with localised arable crops bounded by hedges containing mature hedgerow trees. Remnant medieval strip fields lead up the slope towards the ridgeline.

Background – Tibshelf village dominates the ridgeline.

Change to view: 2003 to 2026 - Some arable conversion has occurred in the middle distance, but the most notable change is the substantial growth of naturally regenerating trees on the lower slopes of Morton Tip, now obscuring much of the view. Despite this increase in visual screening, the overall character of the landscape is assessed as Maintained.

Note: Alternative viewpoint may be needed at next review.

Additional Photographs

LOOKING SOUTH-WEST ALONG FOOTPATH FROM ELMTON TOWARDS ELMTON LODGE

**SOUTHERN
MAGNESIAN
LIMESTONE**

**Limestone
Farmlands**

A gently rolling, agricultural landscape, characterised by large scale open farmland, estate woodlands, and limestone villages.

A single frame view taken on footpath off Oxpasture Lane looking towards Elmtion Lodge plantation.

Direction: South-West

Grid Ref: 4504 3731

Landscape Character: A typical view of the Limestone Farmlands in the Southern Magnesian Limestone of the gently rolling agricultural plateau punctuated by a large plantation woodland.

Baseline landmarks and visual features:

Foreground – gently rolling arable fields with hedgerows but distinct lack of hedgerow trees allied to the gentle relief creating an open landscape.

Middle distance - open arable landscape.

Background – wooded skyline.

Change to view: 2003 to 2026 - hedgerows appear slightly taller and more managed but otherwise no discernible difference. Overall, the character of the landscape is assessed as Maintained.

LOOKING SOUTH-WEST ALONG FOOTPATH FROM ELMTON TOWARDS ELMTON LODGE

LOOKING NORTH-EAST FROM MUGGINTON LANE

NEEDWOOD AND SOUTH DERBYSHIRE CLAYLANDS

Sandstone Slopes and Heaths

A landscape of moderate to steep sandstone slopes with prominent rounded undulations and hillocks forming the upper slopes. A pastoral landscape, with small woodlands and scattered hedgerow trees.

A single frame view from Mugginton Lane end taken adjacent to Fairview, north of The Clives.

Direction: North-East

Grid Ref: 4283 3451

Landscape Character: A typical view of the Sandstone Slopes and Heaths in the Needwood and South Derbyshire Claylands; prominent rounded undulations and hillocks, predominantly pastoral land use, with scattered hedgerow trees and occasional small woodlands and sparsely settled farmsteads and estate cottages.

Baseline landmarks and visual features:

Foreground – dominant rounded undulations and pastoral fields.

Middle Distance – Hollinghurst Farm and Spout Carr Woodland.

Background – the Cross o' th' hands ridgeline beyond to Alport heights and Shottle ridge line.

Change to view: 2003 to 2026. No change. Vegetation in middle distance continues to mature but overall, the character of the landscape in this view is assessed as Maintained.

LOOKING NORTH-EAST FROM MUGGINTON LANE

RIVER TRENT NEAR INGLEBY

TRENT VALLEY WASHLANDS

Riverside Meadows

Broad, flat flood plains, containing meandering rivers and streams with scattered trees along riverbanks. A pastoral landscape of large, hedged fields with trees scattered along boundaries.

A single frame view taken from a public footpath near Ingleby

Direction: North-East

Grid Ref: 4346 3271

Landscape Character: An elevated vantage point from a footpath within the Sandstone Slopes & Heaths (Melbourne Parklands) looking across the Riverside Meadows in the Trent Valley; a broad flat floodplain, pastoral land-use, large fields enclosed by thorn hedgerows with hedgerow trees, scattered watercourse trees, and a lack of built development.

Baseline landmarks and visual features:

Foreground – River Trent and immediate floodplain.

Middle distance – pastoral fields with scattered hedgerow trees to the north of the River Trent.

Background – rising ground to the west of Chellaston.

Change to view: 2003 to 2026 - new planting associated with Swarkstone Quarry continues to mature making the river less visible. Floodplain in foreground becoming incorporated into residential curtilage. Overall, the character of the landscape in this view is assessed as Maintained/ Diverging.

TRENT VALLEY WASHLANDS

Riverside Meadows

Broad, flat flood plains, containing meandering rivers and streams with scattered trees along riverbanks. A pastoral landscape of large, hedged fields with trees scattered along boundaries.

A view of the Trent Valley from Ingleby Road looking across sailing lake and Swarkstone Bridge.

Direction: North-East

Grid Ref: 4363 3270

Landscape Character: An elevated vantage point from Ingleby Road in the Estate Farmlands (Melbourne Parklands) looking across the Riverside Meadows in the Trent Valley; a broad flat floodplain, pastoral land-use, large fields enclosed by thorn hedgerows with hedgerow trees, scattered watercourse trees, and a lack of built development.

Baseline landmarks and visual features:

Foreground – gently sloping mixed arable farmland of the Estate Farmlands and small agricultural buildings associated with Manor Farm. **Middle distance** – the flat floodplain to the river Trent with Swarkstone sailing lake evident in the centre. Swarkstone Stand at the entrance to the former Swarkstone Hall is visible beyond the sailing lake. **Background** – edge of Derby on the rising river terraces. The skyline is formed by the distant hills to the north and west of Derby.

Change to view: 2011 to 2026 - evidence of new residential development near Chellaston and two wind turbines in Derby. The chicken sheds in the foreground have been removed. Water body is now largely obscured by maturing vegetation. Overall, the character of the landscape in this view is assessed as Maintained/ Enhancing.

MELBOURNE PARKLANDS

Wooded Estatelands

A well-wooded, gently undulating, estate landscape with large, estate farms and occasional country houses.

A single frame view from a footpath near Pistern Hill Plantation towards Calke Abbey.

Direction: North-East

Grid Ref: 4355 3206

Landscape Character: This is a view of the Wooded Estatelands in the Melbourne Parklands taken from a slightly elevated vantage point in the Sandstone Slopes & Heaths. A typical view of interlocking woodlands, densely scattered trees and occasional red brick estate farmsteads.

Baseline landmarks and visual features:

Foreground – mixed farming landscape with scattered hedgerow trees.

Middle distance – Southwood House Farm with the wooded parkland to Calke Abbey immediately behind.

Background – the undulating hills of the Melbourne Parklands within and beyond the County boundary.

Change to view: 2003 to 2026 - evidence of large amounts of new tree planting across the view, including new wood pasture trees and woodland blocks. Hedgerows and existing trees are continuing to mature. Overall, the character of the landscape in this view is assessed as Maintained/ Enhancing.

LOOKING SOUTH-WEST OPPOSITE GREYSICH FARM NORTH OF HARTSHORNE

MELBOURNE PARKLANDS

Sandstone Slopes and Heaths

A wooded, pastoral landscape on moderate to steep slopes with prominent rounded undulations and hillocks.

A single frame view taken opposite Greysich Farm in South Derbyshire

Direction: South-West

Grid Ref: 4318 3226

Landscape Character: A typical view of the Sandstone Slopes and Heaths in the Melbourne Parklands; prominent rounded undulations and hillocks, predominantly pastoral land use, and linear woodlands with scattered trees giving the sense of a well-wooded landscape.

Baseline landmarks and visual features:

Foreground – pastoral fields immediately southwest of Greysich Farm.

Middle distance – dominant rounded undulations and pastoral fields with linear woodland belt.

Background – skyline formed by Hoolies Wood.

Change to view: 2003 to 2026 – some intensification of land use and minor variations in colour of grassland due to timing of photos, but otherwise little difference. A small amount of tree planting is visible on the far left of the view. Overall, the character of the landscape in this view is assessed as Maintained.

NORTHERN SWADLINCOTE FROM GRAVELPIT HILL, NORTH OF HARTSHORNE

**LEICESTERSHIRE &
SOUTH DERBYSHIRE
COALFIELD**

**Coalfield Village
Farmlands**

An undulating, industrialised mixed farming landscape with former mining settlement, punctuated by woodland, scattered hedgerow and watercourse trees.

A panoramic view of Upper and Lower Midway from Gravelpit Hill north of Hartshorne.

Direction: South-West

Grid Ref: 4325 3221

Landscape Character: An elevated vantage point within the Melbourne Parklands; Estate Farmlands located across the Coalfield Village Farmlands in the south Derbyshire Coalfield. This is a typical view of the Coalfield Village Farmlands with its broad undulating land-form, mixed farming, hedgerow boundaries, scattered hedgerow and watercourse trees, occasional small woodlands, and expanded settlements.

Baseline landmarks and visual features:

Foreground – existing woodland on the lower slopes of Gravelpit Hill in the Estate Farmlands.

Middle distance – Dunnsmoor Farm is located in the middle of the view surrounded by traditional mixed farming.

Background – the Lower and Upper Midway areas of Swadlincote form the skyline.

Change to view: 2011 to 2026 - view becoming increasingly blocked by National Forest planting in the foreground. There has been some infill development to left of view but overall, the character of the landscape in this view is assessed as Maintained.

Note: Alternative viewpoint may be needed at next review.

NEWHALL FROM FOOTPATH EAST OF STAPENHILL

2003

2026

**LEICESTERSHIRE &
SOUTH DERBYSHIRE
COALFIELD**

**Coalfield Village
Farmlands**

An undulating, industrialised mixed farming landscape with former mining settlement, punctuated by woodland, scattered hedgerow and watercourse trees.

A single frame view taken from a footpath to the east of Stapenhill looking towards Newhall.

Direction: North-East

Grid Ref: 4271 3211

Landscape Character: A typical view of the Coalfield Village Farmlands in the South Derbyshire Coalfield; mixed farming, hedgerow boundaries, occasional woodland and locally dense trees along streamlines, ribbon development and widespread legacy of coal extraction.

Baseline landmarks and visual features:

Foreground – pastoral fields enclosed by simple thorn hedgerows.

Middle distance – tree lined watercourse and disused railway line and the recently completed Bretby landfill site.

Background – the skyline is formed by the settlement of Newhall, particularly houses along Sunnyside.

Change to view: 2003 to 2026 – Bretby Tip in the middle distance is now fully restored and has begun to read as part of the pastoral landscape. Hedgerows and recent woodland planting continue to mature so overall the character of the landscape in this view is assessed as Enhancing.

ROSLISTON FROM FOOTPATH NORTH-WEST OF COTON-IN-THE-ELMS

2003

2026

**MEASE / SENCE
LOWLANDS**

**Village Estate
Farmlands**

This is a well-ordered, gently rolling agricultural landscape punctuated by discrete villages, scattered estate farmsteads and country houses. There are small game coverts and dense lines of trees along watercourses.

A single frame view from a footpath to the northeast of Coton-in-the-Elms looking towards Rosliston.

Direction: North-East

Grid Ref: 4240 3157

Landscape Character: This is a typical view of the Village Estate Farmlands in the Mease/Sence Lowlands; gently rolling mixed farming punctuated by discrete villages, small plantation woodlands, and scattered hedgerow and watercourse trees.

Baseline landmarks and visual features:

Foreground – a mixed farming landscape dominated by arable land.

Middle distance – arable fields, hedgerows, field trees and tree belts southwest of Rosliston.

Background – the village of Rosliston and the steeple to St Mary's Church.

Change to view: 2003 to 2026 – the predominant land use continues to be arable as noted in the foreground field but beyond the hedgerow boundary there is a notable change to the character of this view with the emergence of a new woodland planted as part of the National Forest project. The scale of woodland creation is not typical of the established character of this particular landscape and is beginning to block views towards the settlement edge and the steeple of St Mary's Church (a key characteristic). Overall, the character of the landscape in this view is assessed as Diverging.
