**Trading Standards Division**  
**October, November and December 2020**

<b>S. I. NUMBER</b>	<b>TITLE</b>	<b>ACT</b>	<b>EFFECT</b>	<b>DATE COMING INTO FORCE</b>
<b>2020/1050</b>	<a href="#"><u>Intellectual Property (Amendment etc.) (EU Exit) Regs 2020</u></a>	European Union (Withdrawal) Act 2018, Registered Designs Act 1949 and Trade Marks Act 1994	<a href="https://www.legislation.gov.uk/ukxi/2020/1050/pdfs/ukxiem_20201050_en.pdf">https://www.legislation.gov.uk/ukxi/2020/1050/pdfs/ukxiem_20201050_en.pdf</a>	In accordance with reg. 2
<b>2020/1178</b>	<a href="#"><u>Road Vehicles (Construction and Use) (Amendment) Regs 2020</u></a>	Road Traffic Act 1988	This instrument will ban the use of tyres aged 10-years and older on the front axles of heavy goods vehicles (HGVs), buses, and coaches, and on any axle of a minibus if the tyres are fitted in single configuration i.e. when only one wheel is fitted on each side of the axle (as opposed to some minibuses and heavier vehicles which have two wheels fitted on each side of the axle). It places the same limitations on retreaded tyres if their retreading took place 10-years or more ago. The SI will also introduce a requirement for the “date of manufacture” marking on the tyre to be legible.	01.02.2021
<b>2020/1195</b>	<a href="#"><u>Energy Information (Amendment) Regs 2020</u></a>	European Communities Act 1972	The purpose of this instrument is to amend the table at paragraph 1 of Schedule 1 of the Energy Information Regs 2011 (the “2011 Regs”). This table lists the EU energy labelling measures that currently have effect, and that can therefore be enforced by the UK market surveillance authorities (MSAs) under the 2011 Regs. This instrument adds to the table new energy labelling measures coming into force from 1 November 2020	23.11.2020

**New Legislation**  
**Trading Standards Division**  
**October, November and December 2020**

			<p>pursuant to Commission Delegated Regs made under the EU Energy Labelling Framework Regulation (EU) 2017/1369. Transitional provisions in most of the new Commission Delegated Regs came into force on the 25 December 2019 to allow manufacturers to make the product information sheet available through the EU product database (EPREL), but the substantive provisions relating to the design of the labels and the information they provide come into force on 1 November 2020 or 1 March 2021. This instrument will provide MSAs with the legal basis to enforce new energy labelling requirements for: household washer-dryers, household washing machines, household dishwashers, household refrigerating appliances and electronic displays. This instrument will not be in force by the 1 November 2020, and so there will be an enforcement gap of a few weeks. However, as products take many months to go through product design, testing and distribution, and energy labels are prepared well in advance of sale, the risk that companies may take advantage of this temporary lack of enforcement is very low.</p>	
<b>2020/1248</b>	<a href="#"><u>Consumer Credit (Enforcement, Default and Termination Notices) (Coronavirus) (Amendment) Regs 2020</u></a>	Consumer Credit Act 1974	<p>The purpose of this instrument is to amend the Consumer Credit (Enforcement, Default and Termination Notices) Regs 1983 (S.I. 1983/1561) ("the 1983 Regs") that govern the prescribed language in and form of Enforcement, Default and Termination Notices ("the Notices"). This instrument updates the content of these notices and aims to make them less intimidating and easier to understand.</p>	02.12.2020

**October, November and December 2020**

2020/1410	<a href="#"><u>Food and Feed Hygiene and Safety (Miscellaneous Amendments) (England) Regs 2020</u></a>	European Communities Act 1972 and Food Safety Act 1990	This instrument amends various statutory instruments relating to food and feed hygiene and safety, to ensure an appropriate enforcement regime exists in respect of certain EU food and feed legislation. The instrument is being made under section 2(2) of the European Communities Act 1972, except in relation to some minor amendments to the Materials and Articles in Contact with Food (England) Regs 2012 ("the 2012 Regs") where domestic powers under the Food Safety Act 1990 are being relied on, to come into force after IP completion day. This instrument amends the 2012 Regs to provide the execution and enforcement, in England, of two EU Regs: Regulation (EC) 282/2008 on recycled plastic processes and Regulation (EU) No. 2018/213 on bisphenol A. This instrument will also introduce the use of compliance notices for certain provisions of these EU Regs, in addition to existing EU Regs that are already executed and enforced under the 2012 Regs. It will also remove the maximum penalty of a custodial sentence from nine specific offences in recognition that the penalty of a fine for these offences is now unlimited. The nature of these specific offences is unlikely to have a significant or widespread impact to public health, which justifies the approach taken. Overall, this will provide a graduated approach to enforcement that is both appropriate and proportionate. This instrument also makes minor amendments to the 2012 Regs under the Food Safety Act 1990 which come into force immediately after IP completion day. These amendments are partly consequential on the provisions introduced by this	In accordance with reg. 1

			<p>instrument to ensure the 2012 Regs (as amended by the Materials and Articles in Contact with Food (Amendment) (EU Exit) Regs 2019 on IP completion day) operate correctly after IP completion date with the compliance notice regime introduced by this instrument, and partly to ensure minor errors contained in the amendments to the 2012 Regs are corrected immediately after IP completion day. This instrument amends the Animal Feed (Composition, Marketing and Use) (England) Regs 2015 and the Animal Feed (Hygiene, Sampling etc. and Enforcement) (England) Regs 2015 to provide for the execution and enforcement of Commission Regulation (EU) 2020/354 establishing a list of intended uses of feed intended for particular nutritional purposes and repealing Directive 2008/38/EC. This instrument amends the Official Feed and Food Controls (England) Regs 2009 and the Food Safety and Hygiene (England) Regs 2013 to provide for the execution and enforcement, in England, of the food and feed elements of several pieces of tertiary legislation made under Regulation (EU) 2017/625 on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products. This instrument amends the Fishery Products (Official Controls Charges) (England) Regs 2007 to correct an error identified by the Joint Committee on Statutory Instruments. Whilst the UK had left the EU, this instrument proposes to execute and enforce the specified EU Regs before the end of the transition period while the power under section 2(2) of the European</p>

**Trading Standards Division**  
**October, November and December 2020**

			Communities Act 1972 is available. EU law continues to apply in the UK during the transition period, including rules for food and feed. These EU Regs will be retained in UK law at the end of the transition period and this had been accounted for in separate EU Exit related instruments. Outside the European Union, the UK will have greater flexibility to determine for itself the best approach to ensuring high food and feed standards, and suitable protection for consumers.	
<b>2020/1421</b>	<b><u><a href="#">Genetically Modified Organisms (Amendment) (EU Exit) Regs 2020</a></u></b>	European Union (Withdrawal) Act 2018	<u><a href="https://www.legislation.gov.uk/ukxi/2020/1421/pdfs/ukxiem_20201421_en.pdf">https://www.legislation.gov.uk/ukxi/2020/1421/pdfs/ukxiem_20201421_en.pdf</a></u>	In accordance with reg. 1
<b>2020/1422</b>	<b><u><a href="#">Energy Performance of Buildings (England and Wales) (Amendment) Regs 2020</a></u></b>	European Communities Act 1972	This instrument amends the Energy Performance of Buildings (England and Wales) Regs 2012 (“the principal Regs”). It updates the requirements of assessments of air-conditioning systems, requiring inspections to now consider the capabilities of systems to optimise performance under typical operating conditions, partially implementing Article 15(1) of the Energy Performance of Buildings Directive (EPBD) 2018/844/EU1.	28.12.2020
