Social Care Charge

The county council has a legal obligation to give you the following information:

The Secretary of State for Communities and Local Government has made an offer to adult social care authorities. ("Adult social care authorities" are local authorities which have functions under Part 1 of the Care Act 2014 and include county councils in England.)

The offer is the option of an adult social care authority being able to charge an additional "precept" on its council tax for financial years from the financial year beginning in 2016 without holding a referendum, to assist the authority in meeting expenditure on adult social care. Subject to the annual approval of the House of Commons, the Secretary of State intends to offer the option of charging this "precept" at an appropriate level in each financial year up to and including the financial year 2019-20. In Derbyshire this charge is 2%, and is included in the 4.99% rise.
