

The Derbyshire Challenge
Have your say on changing Housing-Related Support
for Older People at home (Floating Support)

About this consultation

Derbyshire County Council is facing huge budget cuts and must find ways of saving £157 million by 2018. Reductions in Government grants, inflation and greater demands on our budget for adult social care and vulnerable children mean we must re-think the way we deliver services.

It means some services will remain, some will run differently and some services will have to stop. We don't want to cut any services but we do not have any choice.

One of the areas where we are proposing to make savings is housing-related support services.

This questionnaire is one way in which you can tell us what you think about the proposed changes. Alternatively, you can contact our helpline on: 01629 533365 or email your comments to telladultcare@derbyshire.gov.uk.

For more information about the changes please use the factsheet included with this **questionnaire or you can view it online - please go to www.derbyshire.gov.uk/challenge.**

What we are proposing

We are proposing to make £6 million of cuts over the next two years from the housing-related support programme. This questionnaire is about one of the services affected.

The service that provides Older People (over 55) living in Derbyshire with housing-related support to maintain and develop maximum levels of independence, the services work with clients with a variety of needs including people with dementia and their carers to maintain their accommodation, health and wellbeing.

The proposal is to continue to provide support at home for Older People (floating support) at a slightly reduced level from the current delivery of 6,838 people to 5,924 people during the year 2015/16. There should be no significant impact, as the reduction in service delivery will be achieved by providing HRS support for those people who currently receive both a care package and a HRS package through the care and support package only.
