Care and support tailored for you, whenever you need it

Smithybrook View has been carefully and sensitively designed throughout to suit the needs of people aged 55 and over, who need that extra bit of help to continue to live in their own home and maintain their independence.

To help keep you living independently, our support and care services are tailored to your individual requirements, based on your assessment. Personal care will be provided in partnership with Derbyshire County Council Direct Care Services and the resident's chosen care provider.

The service is flexible and responsive, so that we can continue to support the changing needs of residents, and with that help, most will be able to remain at Smithybrook View.

Smithybrook View offers independent living, a community lifestyle and opportunities to enjoy life. It offers the peace of mind that help is close to hand from the team of staff, based in the scheme 24 hours a day, to give you the support you need, when you need it. Sometimes, Easy Living with Care (or 'extra care' housing as it is sometimes called), gets confused with residential care.

This is not a residential care home - it's your own home, and you keep control over your life, with your rights, choices and wishes respected at all times.

Please take the time to read our leaflet "What is Easy Living with Care?" which explains in more detail who this service is designed for.

Friendships and a ready-made community

with lots of opportunities to enjoy life

Residents can enjoy life with the excellent communal facilities. There is always something to do and people to talk to.

Good neighbours and community spirit is at the heart of Easy Living with Care schemes: with residents being supportive of each other informally and through resident-led activities, such as volunteering and running social activities. With the wide range of facilities, everyone has the chance to enjoy new experiences whatever their abilities.

Smithybrook View is at the heart of the local community. You can meet family, friends and visitors in the lounge and have a hot drink at the coffee bar or enjoy the restaurant with them.

The restaurant is open to the public, so this is independent living that welcomes in the outside community.

Smithybrook View is a mixed community of people with a range of needs and abilities, including people with impairments, frailties, disabilities, and dementia. It's a place which provides the care and support which enables most people to continue living independently and promotes a culture of respect and tolerance.
