

DERBYSHIRE COUNTY COUNCIL

CABINET

24 March 2015

Report of the Strategic Director – Adult Care

**PAYMENTS TO VOLUNTARY AND COMMUNITY ORGANISATIONS
2015-16**

ADULT SOCIAL CARE

1. Purpose of the Report

To seek Cabinet approval to continue payments to voluntary and community sector organisations for the period 2015-16.

To seek Cabinet approval to jointly review the current invest in the Voluntary and Community Sector (VSC).

2. Information and Analysis

To date the Council's investment of over £2.5 million in over 200 services has been maintained despite the savings that have been made elsewhere in the Adult Care budget. For 2015-16 it is proposed to maintain the funding at the same level for each group as in 2014-15.

In light of the budget reduction agreed by Cabinet on 2 October 2013, Adult Care needs to review its priorities for all services areas and this includes the priorities of grant funding to the VCS. This Grant Aid Budget for the VCS is generally intended to support people with less complex needs and to assist them to stay as independent for as long as possible. Many of the funded services referenced in this report have been supported for a long time and came about following requests from the sector for funding.

Funding is allocated in three ways:

- Adult Care has stand-alone grant arrangements with voluntary and community sector providers to deliver a specified service that complements other funded care and support services (These agreements are not subject to joint funding from another agency, but does include funding from Public Health). Appendix 1 lists these services.
- Adult Care alongside the local NHS agrees to jointly finance a voluntary and community sector provider for a specified service. In such cases Adult Care and the local NHS agree the split of funding. Appendix 2 lists these services.
- Adult Care provides grant aid to up to 150 small VCS organisations (see Section 2.3 below).

2.1 Voluntary and Community Sector Funding

The organisations listed in Appendix 1 are currently in receipt of funding from Adult Care to provide specific care and support services. Cabinet is asked to note the value of these services and to agree that funding of these organisations using a combination of Adult Care and Public Health funds be extended for the period 2015-16. These services are currently or will be the subject of strategic reviews as set out in 2.5. These reviews will determine their relevance to the current and future commissioning requirements of Adult Care, including their provision across the County and the potential impact of the Care Act on their continued funding. Any proposed changes that are identified following these strategic reviews will be presented to Cabinet.

2.2 Joint Finance

Adult Care and local NHS jointly fund agreements with 45 local voluntary and community sector organisations in order to support individual projects or provide specific care and support services (see Appendix 2 for a list of providers and service descriptions). As yet the local NHS has not confirmed that it will continue to fund its contributions for 2015-16. However, despite this it is proposed that the combined Adult Care and Public Health contribution to these services is extended for a further year. Cabinet is asked to note that a number of these services will be the subject of joint strategic reviews in order to determine their relevance in respect of current and future strategic and commissioning requirements of Adult Care and the local NHS. Any review will include consideration of their provision across the County.

2.3 Grants to Luncheon Clubs, Older Persons Clubs and Clubs for Disabled People

Each year, approximately 150 older people's clubs receive small annual payments in order to support their general running expenses. The amount approved is based on expenditure incurred during the previous year, with the maximum amount payable being as follows: -

- Clubs open full time £369
- Clubs open three days per week £219
- Clubs open less than three days per week £110

These services provide valuable community based services that contribute to Derbyshire's Prevention Strategy. The total level of expenditure during 2014-15 is approximately £22,500 with the total level of assistance for 2015-16 projected to be at a similar level. Cabinet may wish to note that in most instances, but not all, grants to these clubs continue to be matched by District and Borough Councils.

2.4 Public Health Resource Fund

At the Cabinet meetings held on 10 February 2015 approval was given to the continued funding of services commissioned by adult care to be met from the Public Health Resource Fund. The areas that aligned with the Public Health Outcomes Framework and the conditions of the public health ring fenced grant included the following:

- Befriending services
- Exercise for all
- Sensory Services
- Community development and volunteering
- Dementia support services
- Employment for those with long term health conditions, including learning disability
- Home from hospital services
- Support services for people with autism

As a result of this decision funding to voluntary and community groups totaling £0.640m, previously met by Adult Care, is being met by Public Health for the financial year 2015-16.

2.5 Voluntary and Community Sector Investment in Health and Social Care

The Derbyshire Health and Wellbeing Board agreed for a project to be set up to:

- Evaluate and prioritise investment based on a set of shared outcomes taking account of any budget constraints being faced by all of the partners.
- Develop a single commissioning process including contract monitoring and evaluation.

The outcomes of these strategic reviews will identify opportunities for greater budget alignment and make recommendations for continued investment or disinvestment going forward. This work will be undertaken in the context of the budget reductions faced by Adult Care for 2016-18.

A Cabinet Report will be presented at the completion of these strategic reviews detailing the recommendations. Any proposals to disinvest and or re-commission services may have implications for people receiving services funded by Adult Care and if this is the case a period of consultation will be required. The length of the consultation will be a minimum of 12 weeks.

Particular consideration will need to be given in this instance to communicating with any hard to reach groups which do not receive a service directly through Adult Care but rather through an organisation funded by Adult Care.

The Cabinet Report that will summarise the outcome of any consultation will also include any proposals to disinvest Adult Care funding from VCS. Providers affected by any of the proposals will then receive a minimum of 3 months notice of the change of funding in line with the Derbyshire Compact Agreement. It is expected that the first impact of any change to funding would commence at the earliest from 1 April 2016.

3. Financial Considerations

All the proposed allocations set out in Appendix 1 and 2 are based on funding agreed in respect of the 2014-15 year.

The proposed allocation of £2.527m can be met from the appropriate Adult Care and Public Health budgets.

4. Human Resource Considerations

As all the above are voluntary and community organisations none of the staff involved are employed by Derbyshire County Council. However, with regard to any organisation providing services to children or vulnerable adults, approval of financial support is conditional on the existence within these organisations of appropriate statutory procedures assessing suitability to work with children or vulnerable adults.

5. Equality and Diversity Considerations

Payments to any organisation are dependent upon the insistence that the organisation agreeing to adhere to Derbyshire County Council's Equal Opportunities' policies.

6. Other Considerations

In preparing this report the relevance of the following factors has been considered: legal and human rights, health, environmental, transport, property and prevention of crime and disorder considerations.

7. Key Decision

Yes

8. Call-in Is it required that call-in be waived in respect of the decisions proposed in the report? Yes/No

No

9. OFFICER'S RECOMMENDATIONS

That Cabinet approves;

- The proposed allocation of £2.527m to voluntary and community sector organisations for 2015-16 as detailed in appendix 1 and 2 attached to this

report and the allocation of small grants to luncheon clubs, old people clubs and clubs for disabled people.

- The proposal to jointly review with the local NHS the funding for voluntary and community sector services for 2016-17.
