

Agenda item 9

DERBYSHIRE HEALTH AND WELLBEING BOARD

19 April 2018

Report of the Director of Public Health

UPDATE ON REVISED HEALTH AND WELLBEING STRATEGY

1. Purpose of the report

To provide the Health and Wellbeing Board with an update on progress towards developing a new Joint Health and Wellbeing Strategy for Derbyshire.

2. Information and analysis

The Derbyshire Health and Wellbeing Strategy 2015-2017 outlined the Board's key priorities and how members work together to improve the health and wellbeing of Derbyshire's residents. The strategy had 4 priorities:

- Keeping people healthy and independent in their own home.
- Building social capital.
- Creating healthy communities.
- Supporting the emotional health and wellbeing of children and young people.

In October 2017 the Health and Wellbeing Board received a report proposing to develop a refreshed Joint Health and Wellbeing Strategy for 2017-2021.

Following that report, a revised Joint Health and Wellbeing Strategy is now being developed for the period to 2021. Key steps in this process include:

- An initial stakeholder meeting, which will take place in Spring 2018.
- Gathering intelligence on the greatest areas of need across Derbyshire. This is underway and will take a broad approach to ensure that a wide range of determinants of health and health outcomes are considered when developing the new strategy.
- Understanding the remit and priorities of the STP Prevention Strategy to avoid duplication and maximise synergy. Also underway in preparation for the initial stakeholder meeting in Spring 2018.
- Working with stakeholders to develop an Outcomes Based Accountability (OBA) approach to the revised Strategy that will enable the Board to monitor outcomes using metrics agreed during strategy development (Links to Agenda Item 8 - HWB Performance Dashboard).

We are also exploring ways to work with Derby City to develop a Health & Wellbeing Strategy that is synergistic across the geographies, matching the footprint of the Derbyshire STP.

3. Links to the Health and Wellbeing Strategy

The work outlined in this report will shape the Health and Wellbeing Strategy to 2021, ensuring that it reflects the wellbeing, health and social care needs of Derbyshire residents.

RECOMMENDATION

The Health and Wellbeing Board is asked to:

1. Note the progress that is being made to develop a Joint Health and Wellbeing Strategy for the period to 2021.

**Dean Wallace
Director of Public Health
Derbyshire County Council**
