#### Introduction

Welcome to the council's performance report on the Council Plan for Quarter 1 2025-26. The Council Plan sets out the direction of the council and what we are working to achieve on behalf of our residents. At the heart of our Plan is ensuring we provide maximum value for money for the council tax our residents pay, by delivering the most efficient and effective services we can.

### **Achievements**

The following pages detail the progress we have made on delivering the 24 Strategic Objectives in the Council Plan. Key achievements across all services areas in Quarter 1 against the 3 Outcomes include:

#### Outcome 1 - People: Empowered communities where people live safe, happy, healthy and independent lives

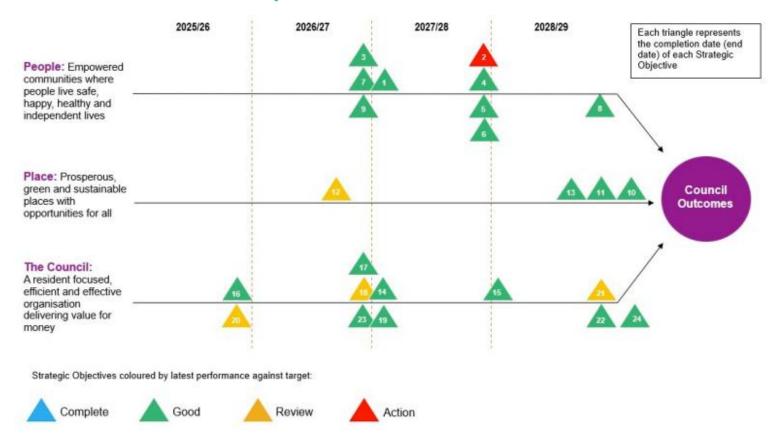

- Derbyshire's Children in Care placement sufficiency strategy has been finalised which will inform our commissioning approach. This includes work to bring together intelligence about the needs of Derbyshire's children in care alongside intelligence about placements and placement availability.
- A Special Educational Needs and Disabilities (SEND) quality assurance framework has been implemented and a new, dedicated multi-agency SEND quality assurance group has been established to oversee all aspects of SEND Education, Health and Care (EHC) planning. This will provide oversight across all priority areas of the SEND improvement plan including timely completion of high-quality EHC assessments and holistic oversight through annual reviews.
- Reduced the length of stay in our Adult Social Care bedded enablement service, enabling people to maximise their independence in a shorter period whilst also enabling more people to access the service.
- Good progress has been made in supporting financial wellbeing, with the Affordable Food Network now operating 16 pantries across Derbyshire, and the Public Health Advisory.
- Service responding to high demand for debt management support. The Service is now well integrated into GP Practices and community venues improving accessibility and efficiency.
- Work to support health inequalities and address risk factors for health is progressing, with key areas including the
  completion of over 2,500 Live Life Better Derbyshire Health and Wellbeing MOTs, which includes access to stop smoking,
  weight management and physical activity support, and the development of a structured plan and draft framework for a
  refreshed Suicide Prevention Strategy.

- Derbyshire's Heartwood Community Forest has made significant progress in its first planting season and has successfully planted 47,000 trees on 42 hectares of both Council and private landowner land.
- The first year of the Derbyshire Makes Programme has been successfully delivered. More than 20 days of public and industry facing events as well as festivals across 6 hub towns have been provided. Workforce and economy targets have been exceeded and an additional £249,950 additional funding has been secured.

#### Outcome 3 - The Council: A resident focused, efficient and effective organisation delivering value for money

- The County Council elections in May 2025 were successfully delivered and the new Council established, with the Leader appointed, the committee structure and membership approved and appointments to outside bodies made at the annual meeting. Elected members have been supported by an induction programme delivered by various officers across all departments following the election.
- Over £7.7million has been raised from the disposal of council land and buildings as part of our property portfolio transformation.

### Base Plan 2025-26 - Quarter 1

As at Quarter 1, of the 24 Strategic Objectives in the Council Plan 2025-29, 19 show good progress, 4 require review and 1 requires action.

The following pages provide summaries of progress and the associated measures.

Measure tables in the report show a range of data including comparison to previous years and available benchmarks. Where data is not included then the historical data was not collected or in the case of benchmarks is not currently available or comparable.

## **Key to Performance Rating**

| Rating   | Strategic Objective  |
|----------|--|
| Complete | Strategic Objective has been completed/reached the intended year end position and achieved intended outcomes |
| Good     | Good progress made during the year and outcomes as expected  |
| Review   | Some issues in achieving timetable and delivering outcomes   |
| Action   | Significant issues in achieving timetable and delivering outcomes  |

Progress tables in the report show a rating based on an assessment against the planned progress for the quarter. Comments in the report will focus of Strategic Objectives and measures that are Review or Action and provide information on the underlying issues and resultant actions.

| Performance against Target | Measures  |
|----------------------------|---|
| Strong                     | More than 5% better than target (2% better than target if the target is greater than 95%) |
| Good                       | Between 5% better or 2% worse than target   |
| Review                     | More than 2% worse than target  |
| Action                     | More than 10% worse than target   |
| Blank                      | No target   |

Measure tables in the report show a range of data including comparison to previous years and available benchmarks. Where data is not included then the historical data was not collected or in the case of benchmarks is not currently available or compatible.

# People: Empowered communities where people live safe, happy, healthy and independent lives

| People | People: Strategic Outcome Progress  |                        |          |  |  |  |  |  |  |  |  |
|--------|---|------------------------|----------|--|--|--|--|--|--|--|--|
| No.    | Strategic<br>Objective  | Expected<br>Completion | Progress | Comments   |  |  |  |  |  |  |  |
| SO-01  | Achieve sufficiency of accommodation to ensure children are cared for in the right home at the right time   | Apr 2027               | Good     | The sufficiency strategy is drafted and due for approval by the Children's Services management team at the end of July. The implementation of the strategy will be reviewed in November 2025. Internal Right HomeRight Time meetings are established and an agency placement panel is established chaired by the assistant director for early help and safeguarding and a further panel is planned to review the internal provision with a view to creating stability and more planned moves within the internal systems.  |  |  |  |  |  |  |  |
| SO-02  | Deliver improved outcomes for those with special educational needs and disabilities through timely analysis of need and support services in collaboration with stakeholders | Mar 2028               | Action   | Robust processes are now in place regarding needs assessments. Decision to assess is within timeframes for 100% of children and young people. A mechanism is in place to trigger Inclusion Service Support following decision not to assess. Procurement of additional Educational Psychology locum support and agency staff in the assessments team means we are now in a position to reduce the number of assessments outside timeframes.  From 1st April to the end of June 2025, 400 EHCP assessments were completed with 12 final plans (3%) issued within timescales. The year to date performance is currently 4.5%. The SEND assessment team continues to face challenges with a backlog of assessments in progress and an increasing number of new requests for assessments. This is also contributed to by a backlog of educational psychology |  |  |  |  |  |  |  |

| No.   | Strategic<br>Objective   | Expected Completion | Progress | Comments  |
|-------|--|---------------------|----------|---|
|       |  |                     |          | assessments. Further capacity is now in place to ensure that timeliness of assessments increases. Whilst the proportion of assessments completed within timescale is lower than the previous three-month period, the number of assessments completed has increased by over 80%.   |
| SO-03 | Ensure there is a good choice of affordable Adult Social Care support available across the county with a focus on people's experiences and improving quality | Mar 2027            | Good     | In Quarter 1 2025-26, Home Based Enablement have supported 1303 people (an additional 271 people than Quarter 1 2024-25). The percentage of people signposted to the most appropriate service this quarter was 84%, against a target of 75%. Good progress continues to be made towards the delivery of the Best Life Derbyshire efficiency programme. In Quarter 1, we have continued to implement the approved recommendations for the changes to our operating model for a number of our Residential, Community Care Centre, Day Services and Learning Disability Day Opportunities sites. |
| SO-04 | Support people to live their best lives independently at home, connected to the community and local resources, stepping in with more help where needed       | Mar 2028            | Good     | In 2024-25, we worked with Partners in Care and Health to review and enhance our approach to strength-based practice for older people and those with physical disabilities. We are currently planning the implementation of the findings, ensuring more consistency in our approach to strength-based practice. There has been a national decline relating to the uptake of Direct Payments, meaning the uptake is below target, however, this quarter is in line with previous months, with 161 people accessing a direct payment for the first time.  |

| No.   | Strategic<br>Objective   | Expected Completion | Progress | Comments   |
|-------|--|---------------------|----------|--|
| SO05  | Support people to recover and regain stability, independence and control following a personal crisis or illness  | Mar 2028            | Good     | Last year, our Home Based Enablement supported an additional 1,509 people to help maximise their independence. In Quarter 1 2025-26, Home Based Enablement have supported 1303 people (an additional 271 people than Quarter 1 2024-25).   |
| SO-06 | Work across the<br>Health and Social<br>Care system with<br>partners, carers<br>and residents to<br>provide support in<br>a safe, supportive<br>homelike setting | Mar 2028            | Good     | Last year, following a public consultation, we agreed to investigate closer working with Derbyshire Community Health Services through a Section 75 agreement. This work has started with governance in place and workstream membership identified in order to agree the formal partnership. Throughout 2025-26, we will initially be progressing opportunities around our bedded enablement offer (Community Support Beds). We have commenced work with system partners regarding community transformation, supporting people to access the right support at the right time. |
| SO-07 | Support financial wellbeing by maximising income, supporting good work and addressing poverty, reducing demand across council services                           | Mar 2027            | Good     | In Quarter 1, strong progress was made across key areas supporting financial wellbeing. The Derbyshire Discretionary Fund's new online portal launched successfully in April 2025, 40% of applications were submitted online, resulting in a comparable drop in call volumes to Call Derbyshire. 4,164 crisis payments were awarded, releasing £524,982 from the fund.  The Feeding Derbyshire network expanded to 16 active pantries despite one closure, and engagement remained high.   |

| No.   | Strategic<br>Objective   | Expected Completion | Progress | Comments   |
|-------|--|---------------------|----------|--|
|       |  |                     |          | The Disability Employment Service supported 73 individuals toward employment, with 20 securing paid roles, and launched a Youth Guarantee Trailblazer project, engaging 30 young people who were not in employment, education or training in coproduction activities.  |
|       |  |                     |          | The Public Health Advisory Service continues to experience high demand, especially for Personal Independence Payments and debt support.  |
|       |  |                     |          | The Household Support Fund (HSF) (7) was approved in April 2025. Quarter 1 HSF activity included offers of grocery vouchers to the families of over 36,000 eligible children.  |
|       |  |                     |          | The Affordable Credit Project engaged 210 residents at events, trained 85 professionals on Illegal Money Lending and safe alternatives, and helped 16 residents join a Credit Union.   |
|       |  |                     |          | In Quarter 1, the Welfare Rights Team supported 5,560 individuals with benefit maximisation and assisted with 1,779 benefit claims and appeals.  |
| SO-08 | Promote good<br>mental health,<br>prevent early<br>deaths, and<br>improve healthy<br>life expectancy by<br>tackling health<br>inequalities and | Mar 2029            | Good     | During Quarter 1 mental health initiatives advanced with the Derbyshire Self-harm And Suicide Prevention Forum meeting and the launch of a new Mentell contract supporting men's peer support, including a new group in Buxton. A refreshed Suicide Prevention Strategy is in development, with a draft framework and consultation plans underway. Schools continue to be actively engaged, with 65 participating in the Whole School Approach audit and 74 in the |

|-------|---|---------------------|----------|---|
|       | addressing the<br>key risk factors of<br>health through |                     |          | SMILERS (Stay connected, Move, Interest, Look, Eat well, Rest, Support) wellbeing project.  |
|       | preventative activity                                   |                     |          | The Council continues to support refugee families through the Homes for Ukraine and Afghan Resettlement Programmes, while adapting to national changes in asylum policy. Community safety efforts are progressing, including preparations for Anti-Social Behaviour Awareness Week, serious violence reduction work, and Prevent duty support in schools.   |
|       |   |                     |          | Public health intelligence has been strengthened through updates to<br>the Joint Strategic Needs Assessment (JSNA), including new topic<br>summaries such as the Special Educational Needs and Disabilities<br>(SEND) topic summary and deep dives.   |
|       |   |                     |          | Significant developments were made in tackling key risk factors for ill health. In alcohol harm reduction, Public Health supported a children and young people's conference and expanded access to Fibroscan technology across Derbyshire to detect liver damage early. Tobacco control efforts included the launch of a countywide smokefree campaign, a new social housing campaign, and progress on a systemwide smokefree pledge. Tobacco Dependency Treatment (TDT) funding was secured, though some inpatient services faced temporary capacity issues due to staffing. Work also began on developing a Derbyshire Food Plan, with stakeholder mapping and a JSNA page on Food and Nutrition now published. |
| SO-09 | Enable the best start in life by                        | Mar 2027            | Good     | The overarching objective of enabling the best start in life for families is progressing well through collaborative efforts across the Council and  |

|     | working across the<br>Council and with<br>partners to enable<br>families to thrive |                     |          | with partners. Key initiatives include the ongoing transformation of the 0-19 Public Health Nursing service, which has gained Cabinet approval for Phase 2 implementation and established a project oversight group to monitor progress. Efforts to enhance health and wellbeing during the critical first 1,000 days are also advancing, with the launch of the preconception toolkit and maternal health campaigns. Additionally, the collaboration between Public Health and Children's Services is facilitating the design of a needs-led Children's Centre offer, although challenges remain in building partnerships due to external agency charges for facility use. |

| SO-10  | Work to address<br>the causes, and<br>adapt to the<br>impacts of climate<br>change through<br>the activities of the<br>Council | Dec 2032            | Good     | A new strategy is being developed to replace the current Derbyshire County Council Climate Change Strategy: Achieving Net Zero (2021-2025), which expires at the end of this year. This new strategy will be considered by Cabinet during Quarter 4 2025-26 and will set out the Council's priorities with regards to economic and environmental sustainability and wider co-benefits (health and wellbeing, access to green spaces etc), and the measures by which these priorities will be delivered.  To-date, the Council has made good progress towards its current net zero target of 2032, or sooner, with a 73% reduction in Council emissions achieved between 2009-10 and 2023-24. Data for 2024-25 will be available by Quarter 3 2025-26 and is expected to show a further reduction, although the speed of reduction is slowing down due to the challenges associated with replacing building heating systems. |
|        |  |                     |          | to the challenges associated with replacing building heating systems with cleaner alternatives and reducing the environmental impact of the Council's core and grey fleet mileage.  |
|        |  |                     |          | The Council is also working with partners to deliver a range of projects to enable Council services, as well as Derbyshire's residents and communities, to be resilient to the impacts of severe weather. This includes, through Derbyshire's Heartwood   |

|       |   |                     |          | Community Forest and delivery of the Council Tree and Woodland Strategy, supporting an increase in the amount of tree cover in Derbyshire, which will provide local amenity and biodiversity benefits, more shade and reduce the likelihood of flooding. The Council is also supporting resilience in communities through the provision of Public Heath early-stage health guidance during severe weather events and ensuring flooding and overheating risks are included in the planning and design for any new builds or major refurbishment projects (for example, schools and care homes) as well as in highway maintenance activities.  |
| SO-11 | Support EMCCA to drive inclusive and sustainable growth in the Derbyshire economy including the creation of a new regional transport organisation | Mar 2029            | Good     | Council officers have been working closely with the East Midlands Combined County Authority (EMCCA) on the development of the Local Growth Plan (LGP). The LGP must be reflective of the challenges that need to be overcome in Derbyshire but also building on the natural capital and strengths in Derbyshire such as the Visitor Economy and manufacturing. Council officers have secured funding from EMCCA to deliver inclusive growth through the business startup scheme (£425k), Inward Investment (£125k) and the visitor economy (£300k).  Council officers have shaped the review of Economic Functions across the EMCCA region that was developed during Quarter 1 and has been procured early in Quarter 2. This will look at a strategic approach to business support, inward investment and the visitor economy, moving the approach away from short term funding to a more sustainable funding model. This will be done with the objective of ensuring inclusive and sustainable growth and to increase resilience into the business support landscape. As a result of the system being in its |

|       |   |                        |          | infancy, planning is currently monitored more regularly to build consistency across all areas.  |
| SO-12 | Deliver a safe, effective, efficient and innovative highways service including the completion of the full transformation of the Highways Service itself | Dec 2026               | Review   | The County Council is investing more capital in maintaining and improving our highways network than ever before. The Highways capital grant for maintaining our highways network is now passported to us from the East Midlands Combined County Authority (EMCCA) and the highways service has been successful in making the case for additional investment in Carriageway Maintenance, Retaining Walls and Landslips as well as providing budget to undertake feasibility to develop future programmes of activity. For 2025-26 the total capital programme will be in excess of ~£70m as opposed to the typical annual investment of ~£40m experienced over recent years. This means building the highways service and supply chain partner capacity to deliver this significant increase in investment. The highways service has a professional services partner on board to help support and develop the necessary skills and to provide resource where required.  Following a thorough review of our preventative workstreams, we have categorised our carriageway defect response into three distinct types. This strategic move has allowed us to make significant progress in addressing the number of high priority outstanding defects by ensuring that we use the right fix the first time.  Whilst road safety within the highways service remains an issue in relation to the delivery of road safety initiatives, this is being addressed with partners in the Derbyshire Road Safety Partnership (DDRSP) to review the 2030 casualty reduction target in 2025. |

|-------|--|---------------------|----------|---|
|       |  |                     |          | Overall, all of this activity builds on the work done to transform the Highways Service, and the implementation of the new Highways operating model intends to be fully implemented by December 2025. Following the implementation, this new operating model will be monitored and reviewed therefore, the full benefits of this service will be realised throughout the following months as the structure and activities continue to be embedded. It is expected that the innovation, effectiveness and efficiency of the service will be reflected in the rating given following the external peer review and value for money assessment due in the autumn of 2026. It is anticipated that the rating will indicate a positive trajectory from 'satisfactory' to 'good' that the activities completed to transform the highways service show a safe, effective and efficient network. |
|       |  |                     |          | The percentage of defects remedied within target timescales during Quarter 1 was below target for non urgent work. For 32-hour timescales it was 82.6%, for 9 days it was 54.5% and 28 days 13.7% against the targets of 90%, 85% and 80% respectively.   |
|       |  |                     |          | Responses for urgent work was within timescale. The Council is investing more capital in maintaining and improving the highways network and nearly 20,000 potholes were fixed during Quarter 1. The annual road condition surveys are carried out during Quarter 2 and the results will show the impact of the work undertaken.   |
| SO-13 | Leading the stewardship of the natural and built environment and | Dec 2029            | Good     | Interim arrangements for separately collected food and garden waste are largely in place with one outstanding food waste contract currently being let. Preliminary market engagement on longer term recycling and organic treatment contracts is taking place this summer. Procurement  |

| No.    | Strategic Objective   | Expected<br>Completion | Progress | Comments  |
| SO-14  | Develop new operating models to provide enhanced services to children and families, strengthen workforce development and explore commercial opportunities | Apr 2027               | Good     | We are recruiting a project officer to implement the families first partnership programme to support family help and safeguarding reforms. A delivery group for this programme has been established. Initial scoping of the Traded services is taking place with the intention to review services with a detailed plan and outcomes planned to be in place for September 2026. A new transport policy is being scoped as well as a review of the Inclusion framework.                           |
| SO-15  | Strengthen the effectiveness of strategic partnerships to drive improved outcomes for children  | Apr 2028               | Good     | Recruitment is currently underway to appoint a project manager to support the implementation of the family first partnership with a key theme being family help. A delivery group meeting has taken place with key partners and further meetings planned. The Special Educational Needs and Disabilities (SEND) priority Impact plan is also well established and progress is being made towards the 6 key priorities. This process has clear governance arrangements with strategic oversight. |
| SO-16  | Recognise and value carers and our social care  | Mar 2026               | Good     | Improvement activity with Partners in Care and Health is underway to reduce administrative time through our assessment processes, which will support practitioner wellbeing. The outcomes of this work will be implemented during   |

|       | workforce and the contribution they make   |                        |          | 2025-26. We are currently supporting 19 Social Work and Occupational Therapy apprenticeships across the Department. In the first two months of this year, 1,179 carers have accessed Support services through the Derbyshire Carers Association.  |
| SO-17 | Embed co-production to<br>strengthen true partnership<br>between people who use<br>Adult Social Care services,<br>carers and professionals to<br>deliver better outcomes   | Mar 2027               | Good     | In September 2025, we will become an IMPACT (Improving Adult Care Together) demonstrator site in partnership with University of Birmingham. Demonstrators explore how we can use evidence to address a major strategic issue, working with local stakeholders.  |
| SO-18 | Deploy and embed the<br>Customer Experience<br>Strategy and community<br>engagement/consultation<br>approaches aligned to<br>delivery of the organisation's<br>vision, strategic objectives<br>and portfolio of change | Mar 2027               | Review   | Customer feedback has been captured during Quarter 1 as part of the Customer Commitment feedback loop, in Quarter 2 the feedback will be analysed. The design, build and implementation of the customer one council transformation plan now needs to be progressed. There is some risk to achieving the expected progress due to the cost of the work, the capacity and capability to deliver and the council's ability to fund the work. |
| SO-19 | Fully explore and implement<br>the opportunity to create a<br>single unitary council for<br>Derbyshire through Local<br>Government Reorganisation  | Apr 2027               | Good     | On 15 May 2025, the Government provided feedback on the interim plans submitted in March in a joint letter to the County Council, Derby City Council, and the District and Borough Councils across Derbyshire. This has clarified that the Government expects reorganisation plans to encompass the entire Derby and Derbyshire area.   |

|-------|---|---------------------|----------|---|
|       | as set out in the English<br>Devolution Whitepaper  |                     |          | Since that time work has been taking place to support the Council to reconsider its position and indicate its preferred option(s) for Local Government Reorganisation, to enable further work ahead of the 28 November 2025 submission deadline. This includes developing a data sharing agreement with Derbyshire councils and preparations for key stakeholder engagement to take place over the summer.  |
| SO-20 | Deliver our four-year budget savings programme to achieve financial sustainability with a focus on delivering £37.5m savings in 2025–26 (year 1 - to be refreshed annually) | Mar 2026            | Review   | <ul> <li>The 2025-26 Revenue Budget includes departmental savings targets totalling £37.499m. As at 30 June 2025:</li> <li>Total savings forecast to be delivered were £35.545m (total of Delivered, Green and Amber). The total forecast delivery includes some savings lines where the forecast delivery exceeds the original target.</li> <li>£10.931m of savings have already been delivered and a further £21.305m of savings are rated 'Green' and expected to be delivered without risk.</li> <li>£2.841m of savings are rated 'Amber'. There is some risk to the delivery of these savings but the assumption is that they will be delivered and progress is being closely monitored.</li> <li>£2.467m of savings (6.6% of the original target) were rated Red. There are significant risks to delivery of these proposals and managers are required to find alternative proposals to compensate for any savings that cannot be delivered.</li> </ul> |

| No.   | Strategic Objective  | Expected Completion | Progress | Comments   |
|-------|--|---------------------|----------|--|
|       |  |                     |          | The difference between Target Savings of £37.499m and Total Savings of £37.545m is a delivery of savings above Target of £0.046m within Adult Social Care  |
| SO-21 | Develop and engage the Council's workforce to enable the organisation to achieve its vision and deliver its strategic objectives and portfolio of change | Mar 2029            | Review   | <ul> <li>Due to a review of this strategic objective and the in year changes that are being proposed there is a risk that the expected progress by the end of the year may not be achieved. However the updated objective and actions will set out any amended timescales for reporting at quarter 2. However progress has been made in a range of areas:</li> <li>The Inspiring Leaders' Programme has now received approval to roll out to a final cohort of Grade 12 leaders who do not have formal line management responsibilities and is due to start in September 2025.</li> <li>Personal Development Reviews have been completed for 2024/25 and for 2025/26 and have been aligned with the new 'Behavioural Framework'. A delivery plan has been developed for the creation of a strategic Workforce Plan aligning with the Council Plan and departmental priorities.</li> <li>The Structural Accuracy Project commenced in Quarter 1 earlier than scheduled and will complete in the early part of Quarter 2.</li> <li>Work on the Reward Strategy is progressing, however there is a risk to the effective delivery of services whilst the Council remains markedly below the average payline for local authorities with a consequent impact on both recruitment and retention in key areas.</li> </ul> |

|-------|--|---------------------|----------|---|
|       |  |                     |          | <ul> <li>The new Internal Communications and the Employee<br/>Survey has concluded, and initial results shared with<br/>senior managers. More detailed results will be shared<br/>with departmental management teams in August.</li> <li>Wellbeing initiatives remain a focus across the Council.</li> </ul>  |
| SO-22 | Improve efficiency and integration across the Council through the centralisation and redesign of support services and digital and financial transformation | Mar 2029            | Good     | The Council is underway on its efficiency, integration and centralisation journey, as part of the Council's One Council Support function project, on 1st April 2025, 855 Business Service employees transitioned into a newly developed Business Services function from across all four Council departments. Further work is underway as part of a wider review of the Council's Operating Model which will look at the further centralisation of support services, a report was taken to Cabinet on 3rd July to provide an update on work undertaken to date and to seek approval to progress this work through the production of an implementation plan which would be brought back to Cabinet in Autumn 2025.  A Service Implications Report has been signed off for Phase 1 of the Financial Improvement Programme and Digital Services now have a fully established leadership team. |
| SO-23 | Support and deliver increased efficiency and effectiveness through best value service reviews to achieve service improvement, redesign                     | Mar 2027            | Good     | The Council has designed the capacity and capability required to increase efficiency and effectiveness through best value service reviews utilising resource from within the Portfolio Management and Transformation Team and resource from Finance. The approved methodology, approach and governance work is also underway, utilising   |

|       | and/or different delivery<br>models including<br>opportunities for digitisation<br>and automation  |                     |          | the agreed project lifecycle and structural framework for managing change initiatives. A tool is in development to help assess and document best value by focussing on key areas such as legal basis, true service delivery costs, compliance with policies, income generation opportunities and authority delegation. |
| SO-24 | Transform the Council's property portfolio, so that it is affordable, sustainable and consists of only those assets required to deliver council priorities | Dec 2029            | Good     | Work continues to review all assets to ensure that they are fit for purpose and cost effective whilst delivering vital council services. During Quarter 1 £7.7m was raised from the sale of land and buildings against the target for the year of £6m. In addition this has reduced the maintenance backlog by £1.4m.  |
