

**SCHOOLS FORUM****26<sup>th</sup> November 2019****Report of the Executive Director for Children's Services****School Block Funding 2020-21****1. Purpose of the Report**

To inform the Schools Forum of the provisional schools block settlement for 2020-21 and potential implications for Derbyshire.

**2. Information and Analysis**

As part of the government's Spending Round 2019, the Chancellor of the Exchequer confirmed to Parliament that funding for schools and high needs will, compared to 2019-20, rise by £2.6 billion for 2020-21, £4.8 billion for 2021-22, and £7.1 billion for 2022-23. On 11<sup>th</sup> October 2019 the DfE released provisional DSG funding levels for 2020-21 for each LA. Final allocations will be published in December to reflect the October 2019 pupil census. This paper focusses on the schools block, papers for the other blocks are covered elsewhere on tonight's agenda.

**2.1 Schools Block increase**

The government have announced the mainstream National Funding Formula (NFF) multipliers for 2020-21. Details of the current and new values are shown in Appendix 1. These increased multipliers feed directly into the calculation of the 2020-21 Schools Block budgets for each LA.

By way of background, the provisional LA-level Schools Block for each sector is derived as a unit rate (Primary/Secondary Unit of Funding (PUF/SUF)) multiplied by the October 2018 pupil census. The PUF/SUF values have been derived by calculating schools' NFF budgets for 2019-20, summing the individual amounts and dividing the aggregate total by the October 2018 pupil count. In addition each sector receives an allocation for premises e.g. PFI, split site, rates etc. the allocations for which are largely based on planned spend in 2019-20. The final school block total will also include a growth fund element to meet in year pupil increases and funding for new free schools. Details of the growth fund for 2020-21 have yet to be announced and will be covered in a separate report to the January 2020 Schools Forum meeting.

The actual settlement for 2020-21 will adopt the same methodology but apply the PUF/SUF values calculated above to the October 2019 pupil census. Thus, although we don't yet know the final settlement for 2020-21, we have a good proxy indicator as the only change in December will be to reflect the updated pupil number count.

The provisional 2020-21 Schools Block allocations for Derbyshire based on October 2018 pupil data are shown in Table 1 overleaf.

**Table 1 – Impact of Change in PUF/SUF rates for 2020-21**

	Primary	Primary	Secondary	Secondary
	2019-20	2020-21	2019-20	2020-21
<b>PUF/SUF per pupil (£)</b>	<b>£3,971.40</b>	<b>£4,251.91</b>	<b>£5,002.23</b>	<b>£5,189.56</b>
<b>% increase in PUF/SUF</b>		+7.06%		+3.74%
<b>October 2018 pupil count</b>	59,516	59,516	38,184	38,184
<b>NFF allocation excl. premises (£m)</b>	<b>236.362</b>	<b>253.057</b>	<b>191.005</b>	<b>198.158</b>
Premises – PFI Allowance (£m)	0.000	0.000	2.373	2.460
Premises – Split site (£m)	0.080	0.080	0.501	0.272
Premises – School rates (£m)	3.738	3.747	3.552	3.252
Premises – Exceptional site factors (£m)	0.094	0.097	0.113	0.119
<b>Provisional total (£m)</b>	<b>240.274</b>	<b>256.981</b>	<b>197.544</b>	<b>204.261</b>
<b>Provisional 2020-21 increase (£m)</b>		<b>+16.707</b>		<b>+6.717</b>

## 2.2 Some issues to note

The percentage increase in the unit of funding is higher for the primary sector than the secondary sector, and this is due mainly to the release of capped gains. There were no capped gains to release in the secondary sector for Derbyshire schools, hence the lower increase.

Although the government has stated it remains committed to a “hard” national formula i.e. one where LAs have little or no role in determining schools’ budgets, this approach will not be applied for 2020-21 and LAs will continue to have local discretion. The key changes to the NFF for 2020-21 are as follows:

- (i) An increase of around 4% to the core NFF multipliers, see Appendix 1.
- (ii) The Minimum Per Pupil Funding levels (MPPF) will be set at £3,750 (2019-20 £3,500) for primary schools and £5,000 (2019-20 £4,800) for secondary schools. The following year, 2021-22, the primary minimum level will rise to £4,000. **These values are mandatory.**
- (iii) Pupil mobility funding will be allocated via a formulaic approach rather than on an historic basis. The mobility factor is intended to support schools in which a high proportion of pupils first join on a non-standard date. Schools with more than 6% of such pupils will be eligible, with every “mobile” pupil in excess of the threshold triggering the multiplier. This would be a new indicator for Derbyshire schools.
- (iv) LAs have the freedom to set the Minimum Funding Guarantee (MFG) in local formulae between +0.5% and +1.84% per pupil.
- (v) The funding floor has been removed as a factor within local authorities’ formulae; &
- (vi) There will be no gains cap in the NFF, however, LAs can apply a cap locally, for example to help address overall affordability issues.

## 2.3 First look at NFF affordability in Derbyshire for 2020-21

In the last two years Derbyshire has endeavoured to mirror the mainstream NFF as closely as possible. In principle it would wish to do so again in 2020-21, subject to the obvious requirement to live within the available resources.

As a first look at potential affordability, the Authority has applied the new 2020-21 NFF multipliers to schools' 2019-20 formula data, assuming a +1.84% per pupil MFG and no cap on gains. The impacts on individual schools' budgets, had the new factors/rates been applied in 2019-20, are provided in a schedule attached to this report. **To be clear, the schedule does not show the amount extra schools will get next year as the analysis does not reflect the impact of data changes.**

It should be noted that the increases for schools currently with protected budgets – either through the funding floor or MFG - are lower as the NFF increases have been partially offset by reductions in the level of protection. By contrast the schools with the greatest cash increases either trigger additional resources via the £3,750/£5,000 MPPF factors and/or have had some of their NFF gains capped in 2019-20.

The total cost of the changes, based on 2019-20 data, is estimated to be £23.14m. However, in addition to the above the Authority will have to fund increases in schools' rates bills and PFI payments as well as any changes to other multipliers e.g. split site, which might be determined locally. These increases could add a further £0.3m pressure next year, bringing the total estimated cost to £23.44m, a figure which broadly equates to the increase in School Block funding in Table 1, £23.424m.

Based on 2019-20 data full implementation of the NFF appears to be just about affordable, albeit with little room for manoeuvre. However, full implementation of the NFF next year could be undermined by data changes e.g. increases in free meals eligibility and/or low prior attainment data. Increases in data sets, other than pupil numbers, do not come with any increase in funding and so any extra cost would have to be met by other means.

Given that the LA's uncommitted DSG reserves are expected to be ~£2m in deficit by the end of this year, any schools block shortfall would have to be closed via changes to our multipliers or other elements of the formula. If the gap were, say, £1m, the options for closing such a shortfall would be to:

- (a) Increase local multipliers to a level slightly below the amounts for 2020-21 in Appendix 1. If our multipliers were set at 99.7% of the NFF values this would achieve a £1m saving. All schools would contribute through this measure.
- (b) Scale the multiplier increases for those counts which have seen a significant demographic increase but which have not triggered additional resources. These are likely to be deprivation and low prior attainment (LPA). The other multipliers in Derbyshire's formulae would remain at the full NFF values. The DfE used a similar approach for 2019-20 when the NFF LPA primary sector multiplier was scaled from £1,050 to £1,022 following an increase in the aggregate count. Depending on the new count a scaling of ~3% would be required to save £1m and all schools would contribute.

- (c) Cap gains – a cap that limited year on year gains to no more than 9% per pupil would generate £0.9m with around 70 primary schools contributing. There are no secondary schools with a capped gain so this sector would be unaffected by this approach.

The LA has not taken a final decision on which of the options it would adopt and will only do so once it has the actual formula data for 2020-21.

## **2.4 Minimum Funding Guarantee (MFG)**

The above analysis assumes an MFG of +1.84% per pupil, the highest rate allowed, and the level that reflects the DfE's estimate of inflation. In previous years the Schools Forum have been concerned about the level of protection received by some schools in Derbyshire and the affordability of this going forward. A particular concern has been the impact on these schools should a future hard national formula not include a protection mechanism.

Attached as Appendix 2 is an estimate of the impact of various MFG rates for 2020-21 and a comparison with the protection received in 2019-20 via MFG and the funding floor. As with the other analyses, the figures are based on 2019-20 data. The appendix shows that the level of protection in the system should be significantly lower in 2020-21 with the total protection bill reducing from £1.969m to only £0.265m at the highest per pupil MFG allowed (+1.84%). The number of schools triggering protection is similarly reduced, falling by 75% from 104 to 26.

The reductions in protection are as a result of the increases in NFF multipliers. Whilst this means many more schools are now funded by the pure NFF, schools currently in receipt of protection will typically receive lower year on year increases in funding.

The difference in the cost of protection between the maximum MFG +1.84% (£0.276m) and the minimum, +0.50% (£0.148m) is only £0.128m. As a result the LA is minded to adopt the highest MFG rate allowed for 2020-21.

## **2.5 De-delegation/top-slicing of funds**

The DfE operational guidance confirms that school forums will be able to de-delegate/top-slice funding for a range of services for LA maintained schools for 2020-21. The principle of re-pooling funding in this way for next year was agreed at the June Schools Forum meeting.

The final re-pooling rates will be confirmed as part of the budget process but the overall rates are unlikely to vary significantly from 2019-20.

## **3. Other Considerations**

In preparing this report the relevance of the following factors has been considered: prevention of crime & disorder, equality of opportunity, HR, legal & human rights, environmental, health, property and transport considerations.

**4. Background Papers**

Held within Finance.

**5. Executive Director's Recommendations**

That the Schools Forum

- (i) Notes the report;
- (ii) Notes the provisional 2020-21 school block settlement;
- (iii) Offers its views on the issues raised in this paper; and
- (iv) Notes that funding will be de-delegated/top-sliced in line with previous years in accordance with the decisions taken at the June 2019 Schools Forum.

**Jane Parfremment  
Executive Director for Children's Services**
