

Local Objective 2

To continue to work with all relevant bodies to ensure appropriate and sustainable development in Derbyshire

	Key actions	Ref No	Breakdown of action to achieve the overarching objective	Priority	Timescales	Status	Estimated Costs	Potential Funding Source*
1	Continue to liaise with and enhance relationships with all Local Planning Authorities to encourage flood risk reduction in land use planning and encourage a strategic approach to catchment management	2.1.1	Aim to inform or support local spatial planning policy to reflect local flood risk and encourage that all local flood risk data is incorporated within all future Strategic Flood Risk Assessments	M	L	E	Existing resource	DCC Revenue and Defra Grant Support Payments
		2.1.2	Fulfill statutory consultee role for surface water drainage on new developments, working closely with the Local Planning Authorities	H	L	D		
		2.1.3	Work with the Environment Agency as a statutory consultee to the planning process promoting flood risk reduction	H	S	C		
		2.1.4	Work closely with cross-border authorities to ensure a strategic approach to planning and catchment management through group discussions, sharing information and working on joint initiatives	H	L	D		
		2.1.5	Work with internal planning teams to help support and inform County related planning activities within Derbyshire	H	S	D		
2	Promote appropriate and sustainable development in Derbyshire	2.2.1	Produce local guidance for Local Planning Authorities and developers on appropriate drainage design for new developments	H	M	D	Existing resource	DCC Revenue
		2.2.2	Encourage appropriate maintenance provision for SuDS that ensure efficient functionality for the lifespan of the development	H	L	E		
		2.2.3	Encourage developers and all undertakers of capital works to design developments that can safely accommodate rainfall that exceeds their design standard (design for exceedance)	H	L	C		
		2.2.4	Encourage and promote softer engineering techniques and retrofit SuDS to manage flood risk where opportunities exist	M	L	C		
		2.2.5	Work with all Risk Management Authorities to identify sustainable schemes/options to be put forward for potential national flood risk management funding	M	L	C		
3	Encourage sustainable works on or within close proximity to ordinary watercourses	2.3.1	Where possible, suggest alternative sustainable options to any proposed hard engineering options for works in or within close proximity to ordinary watercourses	M	L	D	Existing resource	DCC Revenue
		2.3.2	Set a policy for culverting and continue to encourage deculverting	M	S	A		
		2.3.3	Set and implement an enforcement policy where any unconsented works within ordinary watercourses may increase or exacerbate flood risk	M	M	A		
4	Continue to develop relationships with the local people, businesses, developers and all other relevant stakeholders surrounding local planning and development	2.4.1	Support and advise the public regarding the planning process where appropriate- in relation to proposed development land	M	L	C	Existing resource	DCC Revenue
		2.4.2	Encourage early engagement with developers to maximise the benefits of SuDS	H	L	C		
		2.4.3	Continue to develop relationships and consult with all relevant stakeholders in relation to development activities	M	L	C		

Priority	
High	H
Medium	M
Low	L

Timescales	
Long (L)	Over 5 years
Medium (M)	2 to 5 years
Short (S)	1 to 2 years

Status	Description
Continue (C)	Continue to carry out existing role in the future
Develop (D)	Develop and expand upon existing roles or increase existing service area
Establish (E)	Establish a new role or service area
Achieved (A)	Action is already achieved

Above identified potential funding sources are under constant review
