Summary

The site is a green field site that is used for agriculture which is located to the east of Dalbury Lees. There is access onto the unnamed road through Dalbury Lees. We have suggested a site capacity of 40 dwellings. There is medium developer interest currently on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated. The site is in single ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable and is available for residential development in the future.
