Summary

The site is a predominantly green field site currently used as agricultural land which is located to the north of Findern near to the A38. The site has potential access onto Doles Lane, or Burton Road through other sites. We have estimated a site capacity of 178 dwellings. There is no developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy. The southern part of the site lies within Flood Zone 3 which would require a sequential test if it were to be developed. The site is also partially covered by a Tree Preservation Order, which would require further assessment.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
