**Summary**

The site is a green field site that is currently used as agricultural land that is located to the south of Rosliston. The site has potential access onto Linton Road. We have estimated a site capacity of 288 dwellings. There is no developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy and also the Tree Preservation Orders on the site.

The site is considered available as the existing use would not need to be relocated. The site is in multiple ownership but currently all owners are currently willing to develop.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
