Site suitable? Potentially

Site available? No

Site achievable? Yes

Deliverable dwellings:**Developable dwellings:****Summary**

The site is a brown field site that currently contains a garden centre which is located off Burton Road, Findern. There is access onto Burton Road. We have suggested a site capacity of 42 dwellings. There is no developer interest on the site currently.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered not available as the existing use of the garden centre may need to be relocated. The site is in single ownership.

The site is considered achievable as it is a brown field site and there is a reasonable prospect that the site will be financially viable and is available for residential development in the future. However, the impact on viability of the clearing of the garden centre would require further assessment.
