Summary

The site is a green field site that is used for agriculture which is located on Burton Road, Findern. There is access onto Burton Road. We have suggested a site capacity of 50 dwellings. There is no developer interest currently on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy and the southern half of the site is covered by a Tree Preservation Order.

The site is considered available as the existing use would not need to be relocated. The site is in single ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable and is available for residential development in the future.
