**Summary**

This is a cross boundary site, partially in South Derbyshire. It has no specific allocation in the adopted City of Derby Local Plan. The assessment below relates to the element of the site within Derby City.

The site was included in the 2007 PUA SHLAA and was an omission site in the CDLP Review Inquiry which was unsuccessful in achieving allocation for residential uses.

Latest information from the owners is that they are still promoting the Derby City element of the site very strongly to be developed for housing in the short term. The promoters have designed a scheme of circa 60 dwellings and carried out local consultation.

The issues of access and highways impact need to be resolved before the site could be deemed to be appropriate for residential development. As unallocated greenfield land, it offers an opportunity but because the Local Plan Inspector found it inappropriate for allocation previously it is not classed as currently deliverable or developable but has the potential to be in the future. A further concern in the area generally is the provision of school places to meet the needs of new development.

A capacity of circa 60 units on the Derby City element has been recently put to the city council by the owners. The Council would need to be satisfied a sustainable development would be formed before it could be classed as developable.
