**Summary**

This site is subject to a planning application. It involves development of 11 dwellings in the grounds of Broadway Baptist Church on Broadway off Kedleston Road.

The site is not very well located in terms of access to local facilities however it is in a residential area of the city.

Access to the city centre is reasonable by bus along Kedleston Road with services running regularly. This would allow access to all of the employment, leisure and retail facilities and wider transport connections which the city centre offers.

This site is expected to be delivered within five years through the development of the current application. There are no reasons in principle for the application to be refused. It is therefore classed as a deliverable short term site which will provide 11 new homes.
