**Summary**

This site is a predominantly green field site that is located close to Aston on Trent with an access off Shardlow Road. We have estimated a site capacity of 42 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy. Also, it is disconnected from the built up area of the village by a playing field.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a predominantly green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
