**Summary**

The site is currently comprises agricultural land and a dwelling and is located to the north of Aston on Trent. The site has potential access onto Derby Road. We have estimated a site capacity of 40 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy and access to the site is yet to be determined.

The site is considered available as the existing use would not need to be relocated.

The site is considered achievable as it is a mixed use site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
