Summary

The site is a green field site currently used as a paddock which is located to the south of Elvaston. The site has an existing access onto Ball Lane. We have estimated a site capacity of 12 dwellings. There is no developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by countryside and green belt policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
