**Summary**

The site is a green field site currently used as part garden and part pasture land which is located to the east of Etwall. The site has potential access onto Willington Road. We have estimated a site capacity of 20 dwellings. There is medium developer interest.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered not available as although the site has been submitted for consideration in the SHLAA by a third party, the landowner has since indicated that they do not wish to see the land developed for housing.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
