Summary

The site is a green field site located towards the south of Etwall. The site has potential access onto either Egginton Road or Jackson's Lane. Given the previous (withdrawn) planning application for the site, the site's capacity has been estimated at 98 dwellings. There is a high level of developer interest in the site.

The site is considered to be potentially suitable as it is located in an area currently protected by the adopted (1998) Local Plan's Countryside policy.

The site is considered available as the existing use would not need to be relocated and there are no ownership constraints that we are aware of.

The site is considered to be achievable as it is a greenfield site and there is a reasonable prospect that the site will be financially viable for residential development.
