**Summary**

The site is a green field site that is currently used for agricultural and also farm buildings which is located to the south of Findern. The site has potential access onto Heath Lane. We have estimated a site capacity of 93 dwellings. There is low developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy. There is a Tree Preservation Order which covers the western boundary of the site which would need further assessment.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
