CONSTRAINTS				
<b>Policy constraints:</b> The site has been considered against Local, Regional and National planning policy and it has been assessed that the site is constrained by: - Countryside policy (ENV1) in the South Derbyshire Local Plan 1998.				
<b>Physical constraints (i.e. topography):</b> The site has been assessed and it is considered that the site is physically constrained by: - the site sloping slightly to the north and the site area beneath and past overhead power cables (however this is not included in developable area).				
<b>Environmental constraints including flood risk:</b> The site has been assessed and it is considered that residential development on this site would be economically viable.				
<b>Access constraints:</b> The site has been assessed and it is considered that the access to the site is constrained due to: Backare Lane being a narrow lane.				

**Ownership constraints:**

**Summary**

The majority of the site is a green field site, which is located to the north west of Findern. The site has a slight slope to the north with potential access onto Bakeacre Road. We have estimated a site capacity of 374 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as the majority of the site is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future. However, the impact of the gradient on viability would need further assessment.
