Summary

The site is a green field site that is currently used for agriculture to the west of Hartshorne on the corner of Repton Road and Duns Moor Lane. The site has potential access onto Repton Road and is relatively flat. We have estimated a site capacity of 74 dwellings. There is medium developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the whole site is in an area protected by countryside policy. A small area of the site is in flood zone 3a but this shouldn't prevent the site as a whole from being developed.

The site is considered available as the site is in one ownership.

The site is considered achievable as there is a reasonable prospect that the site will be financially viable for residential development in the future.
