**Summary**

The site is a green field site that is currently used as agricultural land that is located to the east of Hilton. The site has potential access onto Lucas Lane and Egginton Road. We have estimated a site capacity of 506 dwellings (10 dph); this figure has been used as the site was suggested in the submission for a mixed use development. There is low developer interest.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
