**Summary**

The site is a green field site currently used as agricultural land which is located to the south of Linton. The site has only pedestrian access. It has been proposed through the SHLAA submission that approximately 65 dwellings could be provided on the site. There is medium developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
