Summary

The site is a green field site that is currently used for market gardening which is located on Jawbone Lane, Kings Newton. There is access onto Jawbone Lane. We have suggested a site capacity of 35 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy and being adjacent to a Conservation Area.

The site is considered available as the existing use would not need to be relocated. The site is in single ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable and is available for residential development in the future.
