Summary

The site is greenfield and currently in use as a playing field. The site has access onto The Pastures and onto Mitre Drive. It has been suggested through the SHLAA submission that the site could accommodate up to 30 dwellings. There is currently no developer interest in the site.

The site is considered to be potentially suitable. Any scheme would have to take account of the Repton Conservation Area.

The site is considered to be available; the site is in one ownership however a new location would need to be found for the existing use.

The site is considered to be achievable as it is a greenfield site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
