Summary

The site is a green field site currently used as farmland which is located to the north of Shardlow. The site has potential access onto London Road. It has been proposed through the SHLAA submission that approximately 100 dwellings could be provided on this site. There is no developer interest on the site.

The site is considered to be potentially suitable although it is currently restricted by countryside and green belt policy. The site lies wholly within Flood Zone 3a and therefore a sequential test would be required.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
