Summary

The site is a green field site contains cultivated land which is located to the south west of Shardlow. The site has potential access onto Aston Lane and Alts Nook Way. We have estimated a site capacity of 123 dwellings. There is no developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy. The majority of the site lies within Flood Zone 2 which means a sequential test would be required.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
