**Site suitable?** Potentially      **Site available?** Yes      **Site achievable?** Yes

**Deliverable dwellings:** 0      **Developable dwellings:** 0

**Summary**

The site is a green field site currently used as agricultural land which is located to the north of Swadlincote near Upper Midway. The site has potential access onto Burton Road and there are steep gradients within the site. We have estimated a site capacity of 133 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as a significant part of the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future. However, the impact on viability of the gradient across the site would need further assessment.
