**Summary**

The site is a green field site that is currently vacant land with trees planted on it that is located to the north of Newhall, Swadlincote. The site has potential access onto Bretby Hollow. It has been proposed through the SHLAA submission that approximately 10 dwellings could be provided on this site. There is high developer interest on the site.

The site is considered to be potentially suitable as it does not have planning permission. A majority of the site has a Tree Preservation Order across it which would require further assessment.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
