Summary

The site is a green field site that was formerly used as agricultural land that is located north of Church Gresley. The site has potential access onto Gresley Wood Road. We have estimated a site capacity of 27 dwellings. There is medium developer interest on the site.

The site is considered to be potentially suitable as it does not have planning permission nor is it allocated.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future. However, the provision of a suitable access may impact on viability.
