Summary

The site is a green field site that is currently used as agricultural land and is located at Sandcliffe Road, Swadlincote. The site has access onto Sandcliffe Road. We have suggested a site capacity of 468 dwellings. There is high developer interest on the site currently.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated. The site is in single ownership.

The site is considered achievable as it is a predominantly green field site and there is a reasonable prospect that the site will be financially viable and become available for residential development in the future. However, the impact on viability of the gradient and pylons on the site would require further assessment.
