**Summary**

The site is a green field site currently used as agricultural land, which is located to the north of Ticknall. The site was proposed as part of a larger development that would also include a new cricket ground, football pitch, tennis courts and open space. There is potential access onto Ingelby Lane. We have estimated a site capacity of 29 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy. The site is adjacent to the Ticknall Conservation Area.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
