**Summary**

The site is a green field site currently used as agricultural land, which is located to the south of Ticknall. There is potential access onto Ashby Road. We have estimated a site capacity of 12 dwellings. There is high developer interest in the site.

The site is considered to be potentially suitable as it is currently restricted by local plan policy as the site, is on an area protected by countryside policy. The site is adjacent to the Ticknall Conservation Area.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future
