**Deliverable dwellings:** 0      **Developable dwellings:** 0

**Summary**

The site is a green field site currently in use as cultivated farmland. The site is located to the west of Weston on Trent. The site has potential access to the Main Street. We have estimated a site capacity of 124 dwellings. There is low developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future. However, the impact on viability of the restricted visibility at the west access point may need further assessment.
