Summary

The site is a green field site containing a mixture of grazing land and allotments which is located to the south of Weston on Trent. The site has potential access onto Trent Lane. We have estimated a site capacity of 47 dwellings. There is high developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy and Green Belt policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
