Summary

The site is restored greenfield land. The site is located to the west of Willington. The site has potential access onto Kingfisher Lane. It has been proposed through the SHLAA submission, that the site could accommodate 50 dwellings. There is high developer interest.

The site is considered potentially suitable as it is currently restricted by local plan policy as the site is in an area protected by countryside policy.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
