**Summary**

The site is a green field site that contains a farm building and paddock which is located to the south of Hartshorne. The site has access onto Woodville Road. We have estimated a site capacity of 14 dwellings. There is medium developer interest on the site.

The site is considered to be potentially suitable as it is currently restricted by local planning policy as the site is in an area protected by countryside policy.

The site is considered available as the current use does not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
