Summary

The site is a green field site that is currently used as agricultural land which is located to the east of Woodville. The site does not have access onto a main road. We have estimated a site capacity of 26 dwellings. There is no developer interest on the site.

The site is considered to be potentially suitable due to it being within an area protected by countryside policy in local planning policy. The access to the site would also require further investigation.

The site is considered available as the existing use would not need to be relocated and the site is in one ownership.

The site is considered achievable as it is a green field site and there is a reasonable prospect that the site will be financially viable for residential development in the future.
