Meadow View Community Care Centre
Community support for older people and carers
Derbyshire County Council
Welcome to Meadow View Community Care Centre. This centre provides a wide range of services to support people in the community.

Meadow View is the latest in a number of Community Care Centres in Derbyshire. These are regarded as high quality care establishments, delivering services to older people with complex needs.

The building is designed to be dementia friendly.

Meadow View supports:
- Adults living with dementia and their carers
- Local people – the centre is a hub for the local community
- Older people needing short term residential care.

Meadow View provides:
- Open public areas
- Centre based services tailored to meet assessed needs
- A base for community support
- Home care staff
- Short and long term residential care
- Advice and information
- Day care
- Rehabilitation
- Health support services.
Services based on individual support plans

For those people who need higher levels of support, the centre offers a range of services which are provided after an assessment.

We give clients the choice of what services they want, and help them to make decisions and live life as independently as they can.

Services include:

- 20 places offering opportunities for day time activities available four days a week
- Opportunities for specialist assessments, therapy, treatment and social activities, including an assessment service for people with dementia
- Advice, information and support for carers.

Residential Services

The centre has 32 residential places with en-suite facilities to support the care of older people who have high levels of need, such as those with advanced dementia. All the accommodation is homely, high quality and well designed to create environments where residents can feel comfortable and supported.

Long term residential care

There are 16 places available for people with dementia and higher levels of need providing specialist long term care in a secure and attractive environment.

Short stay and intermediate care

The short stay accommodation has 16 attractive en-suite bedrooms and facilities, purpose built for short breaks and intermediate care.

The accommodation is designed and equipped to support recovery and maintain and promote independence. People staying in the accommodation will be able to enjoy the full range of resources available within the centre.

There are eight places available to provide planned and emergency short breaks. The places will allow people the opportunity for some intensive support when it’s needed, so their carers can enjoy a much needed break, or to help people recover their independence.

There are also eight short stay places providing a mixture of social care support and rehabilitation for a short period (usually around 6 weeks) intended to increase an individual's physical, emotional and mental well-being. This is known as intermediate care.

Intermediate care places provide a homely setting to support people who need some time to recuperate following a discharge from hospital or to prevent unnecessary admission to hospital or long term care.
