

We achieve our aims through:

Fully supported individually assessed programmes of work experience and training; provided within a safe and secure environment.

Allowing growth and development in a truly person centred framework, enabling trainees to have choice and control within their lives.

Continuous monitoring and assessment of trainees, ongoing risk assessment.

We promote and develop partnerships with outside organisations.

Markham Vale Land Services

are a work experience project operated by the North East Derbyshire and Bolsover Learning Disability Partnership; part of Derbyshire County Council Adult Care.

Our aim is to provide adults with a learning disability living in North East Derbyshire and Bolsover meaningful and valued work experience and work readiness training to allow them to enter the job market at a time they feel comfortable with. We hope to provide all trainees with a recognised qualification

Working in partnership with Derbyshire County Council Environmental Services we provide mainly grounds maintenance and land management opportunities at Markham Vale. We also operate an

allotment in Bolsover; produce is sold to cover costs.

We also undertake caretaking duties at the Environment Centre

We are continually looking to extend the work based opportunities available to adults with learning disabilities in Bolsover and North East Derbyshire.

We strive to implement the principles of Valuing People Now and Valuing Employment Now.
